voodoo d angelo s much anticipated 2000 release set the standard for the musical cycle ordained as neo soul a label the singer and songwriter would reject more than a decade later the album is a product of heightened emotions and fused sensibilities an amalgam of soul rock jazz gospel hip hop and afrobeats d angelo put to music his own pleasures and insecurities as a man child in the promised land it was both a tribute to his musical heroes prince sly stone marvin gaye j dilla and a deconstruction

of rhythm and blues itself despite nearly universal acclaim the sonic expansiveness of voodoo proved too nebulous for airplay on many radio stations seeping outside the accepted lines of commercial r b music voodoo was black it was definitely magic and it was nearly overshadowed by a four minute music video featuring d angelo s sweat glistened six pack abs the video created an accentuated moment when the shaman lost control of the spell he cast

this volume examines self initiated expatriates sies the category of highly skilled people whose movement from one country to another is by choice although they are not forced to relocate due to work conflict or natural disaster their migration pattern is every bit as complex the book challenges previous theoretical approaches that take for granted a more simplistic view of this population and advances that mobility of sies relates to the expatriates themselves their conditions and the different structures intervening in their career life course with their visible increase worldwide this book positions itself as a nexus for this on going discussion while linking self initiated expatriation to the theoretical landscape of international skilled migration and mobility major interests that catch attention are transnational practices work related experiences and personal life course including forms of inequalities in their migration experiences the book identifies forms and drivers of migratory behaviour and provides an argument concerning the broader processes of mobility and integration as such this book constitutes a departure point for future research in terms of theoretical underpinnings and empirical rigor on global highly skilled mobility of sies the collection of empirical case studies offers an insightful analysis for policy makers concerned stakeholders and organizations to better cope with this form of migration
