this book provides a critical and contemporary evaluation of the laws and enforcement policies pertaining to tax evasion in the united kingdom uk and united states us since the inception of taxes revenue collection authorities around the world have attempted to address the seemingly perennial problem of individuals evading their tax liabilities the financial crisis has shone a new light on the issue with an increased interest in using the criminal justice system as a means of addressing it in the uk in sharp contrast to the uk the us has a strong record of prosecuting crimes of tax evasion whether committed by individuals or professional corporate facilitators providing an evaluation of the uk s tax evasion laws and enforcement policy through a comparative approach this work highlights insights provided by the us experience in so doing the book explores the interconnections between tax evasion and money laundering identifying best practices omissions and areas for reform the work will be a valuable resource for researchers academics and policy makers working in the areas of financial crime financial law accountancy and criminal justice

although the details of tax law are literally endless differing not only from jurisdiction to jurisdiction but also from day to day structures and patterns exist across tax systems that can be understood with relative ease this book now in an updated new edition focuses on these essential patterns it provides an immensely useful introduction to the core common knowledge that any well informed tax lawyer or policy maker should have about comparative tax law in our times the busy reader will welcome the compact nature of this work which is shorter than the first edition and can be read in a weekend if one skips footnotes the authors elucidate the commonalities and differences across countries in areas including much of the detail new to the second edition general anti avoidance rules court decisions striking down tax laws as violating constitutional rules against retroactivity unequal treatment of equals confiscation and undue vagueness statutory interpretation inflation adjustment rules and the allowance for corporate equity value added tax systems concepts such as tax capital gain tax avoidance and partnership corporate shareholder tax systems the relationship between tax and financial accounting taxation of investment income tax authorities ability to obtain and process information about taxpayers and systems of appeals from tax assessments the information and analysis pull together valuable material which is

scattered over a disparate literature much of it not available in english especially considering the dynamic nature of tax law whose rate of change exceeds that of any other field of law the authors clear identification of the underlying patterns and fundamental structures that all tax systems have in common as well as where the differences lie guides the reader and offers resources for further research

throughout human history technological advancements have been made for the ease of human labor with our most recent advancements it has been the work of scholars to discover ways for machines to take over a large part of this labor and reduce human intervention these advancements may become essential processes to nearly every industry it is essential to be knowledgeable about automation so that it may be applied research anthology on cross disciplinary designs and applications of automation is a comprehensive resource on the emerging designs and application of automation this collection features a number of authors spanning multiple disciplines such as home automation healthcare automation government automation and more covering topics such as human machine interaction trust calibration and sensors this research anthology is an excellent resource for technologists it specialists computer engineers systems and software engineers manufacturers engineers government officials professors students healthcare administration managers ceos researchers and academicians
