no word is more central to the contemporary political imagination and action than resistance in its various manifestations from the armed guerrilla to gandhian mass pacifist protest from wikileaks and the arab spring to the global eruption and violent repression of the occupy movement concepts of resistance are becoming ubiquitous and urgent in this book howard caygill conducts the first ever systematic analysis of resistance as a means of defying political oppression in its relationship with military violence and its cultural representation beginning with the militaristic doctrine of clausewitz and the evolution of a new model of guerrilla warfare to resist the forces of napoleonic france on resistance elucidates and critiques the contributions of seminal resistant thinkers from marx and nietzsche to mao gandhi sartre and fanon to identify continuities of resistance and rebellion from the paris commune to the greenham women s peace camp employing a threefold line of inquiry caygill exposes the persistent discourses through which resistance has been framed in terms of force violence consciousness and subjectivity to evolve a critique of resistance tracing the features of resistance its strategies character and habitual forms throughout modern world history caygill identifies the typological consistencies which make up resistance finally by teasing out the conceptual nuances of resistance

and its affinities to concepts of repression reform and revolution caygill reflects upon contemporary manifestations of resistance to identify whether the 21st century is evolving new understandings of protest and struggle

recognized as one of the leading philosophers and jewish thinkers of the twentieth century emil ludwig fackenheim has been widely praised for his boldness originality and profundity as is well known a striking feature of fackenheim s thought is his unwavering contention that the holocaust brought about a radical shift in human history so monumental and unprecedented that nothing can ever be the same again fackenheim regarded it as the specific duty of thinkers and scholars to assume responsibility to probe this historical event for its impact on the human future and to make its immense ramifications evident in emil fackenheim s post holocaust thought and its philosophical sources scholars consider important figures in the history of philosophy including kant hegel heidegger and strauss and trace how fackenheim s philosophical confrontations with each of them shaped his overall thought this collection details which philosophers exercised the greatest influence on fackenheim and how he diverged from them incorporating widely varying approaches the contributors in the volume wrestle with this challenge historically politically and philosophically in order to illuminate the depths of fackenheim s own thought

twenty years after the fall of the berlin wall the question remains do good fences still make good neighbours since the great wall of china the antonine wall built in scotland to support hadrian s wall the roman limes or the danavirk fence the wall has been a constant in the protection of defined entities claiming sovereignty east and west but is the wall more than an historical relict for the management of borders in recent years the wall has been given renewed vigour in north america particularly along the u s mexico border and in israel palestine but the success of these new walls in the development of friendly and orderly relations between nations or indeed within nations remains unclear what role does the wall play in the development of security and insecurity do walls contribute to a sense of insecurity as much as they assuage fears and create a sense of security for those behind the line exactly what kind of security is associated with border walls this book explores the issue of how the return of the border fences and walls as a political tool may be symptomatic of a new era in border studies and international relations taking a multidisciplinary approach this volume examines problems that include security issues the recurrence and or decline of the wall wall discourses legal approaches to the wall the wall industry and border technology as well as their symbolism role objectives and

efficiency

student learning communities slcs are more than just a different way of doing group work like the professional learning communities they resemble slcs provide students with a structured way to solve problems share insight and help one another continually develop new skills and expertise with the right planning and support dynamic collaborative learning can thrive everywhere in this book educators douglas fisher nancy frey and john almarode explain how to create and sustain student learning communities by designing group experiences and tasks that encourage dialogue fostering the relational conditions that advance academic social and emotional development providing explicit instruction on goal setting and opportunities to practice progress monitoring using thoughtful teaming practices to build cognitive metacognitive and emotional regulation skills teaching students to seek give and receive feedback that amplifies their own and others learning and developing the specific leadership skills and strategies that promote individual and group success examples from face to face and virtual k 12 classrooms help to illustrate what slcs are and teacher voices testify to what they can achieve no more hoping the group work you re assigning will be good enough or that collaboration will be its own reward no more crossing your fingers for productive outcomes or struggling to keep order assess individual student contributions and ensure fairness student learning communities shows you how to equip your students with what they need to learn in a way that is truly collective makes them smarter together than they would be alone creates a more positive classroom culture and enables continuous academic and social emotional growth
