unfulfilled legal needs are at a tipping point in many parts of the canadian justice system and around the world the justice crisis assesses what is and isn't working in an effort to improve a fundamental right of democratic citizenship access to civil and family justice meaningful access is often a question of providing pathways to resolving everyday legal issues the availability of justice services that aren't only tied to the courts and lawyers such as public education on the law alternative dispute settlement and paralegal support is therefore an important concern contributors to this wide ranging overview of new empirical research address several key justice issues the extent and cost of unmet legal needs the role of public funding connections between legal and social exclusion among vulnerable populations the value of new legal pathways the provision of justice services beyond the courts and lawyers and the need for a culture change within the justice system their findings can inform initiatives to improve access to justice within the canadian system and beyond

this volume provides a comprehensive overview of quality metrics and methods used to improve quality for all major modalities of crc screening it introduces the readers to the

evidence of effectiveness behind various crc screening modalities stool based tests fecal occult blood fecal immunochemical and fecal dna tests flexible sigmoidoscopy colonoscopy and ct colonography in depth chapters review the latest guidelines for crc screening compare differences among the five major national guidelines and highlight the need for valid quality and cost indicators while the main focus of this volume is on colonoscopy since most quality indicators and analyses have focused on this modality of screening and surveillance one chapter is devoted to quality indicators of other screening modalities differences between process and outcome measures are also highlighted and a small but valid set of recommended national measures are listed written by experts in the field colorectal cancer screening quality and benchmarks is an important and useful resource written for gastroenterologists primary care physicians general and colorectal surgeons family physicians and investigators with research focus in screening and quality metrics

this edited volume approaches waiting both as a social phenomenon that proliferates in irregularised forms of migration and as an analytical perspective on migration processes and practices waiting as an analytical perspective offers new insights into the complex and shifting nature of processes of bordering belonging state power exclusion and inclusion and social relations in irregular migration the chapters in this book address legal bureaucratic ethical gendered and affective dimensions of time and migration a key concern is to develop more theoretically robust approaches to waiting in migration as constituted in and through multiple and relational temporalities the chapters highlight how waiting is configured in specific legal material and socio cultural situations as well as how migrants encounter incorporate and resist temporal structures this collection includes ethnographic and other empirically based material as well as theorizing that cross cut disciplinary boundaries it will be relevant to scholars from anthropology and sociology and others interested in temporalities migration borders and power the open access version of this book available at tandfebooks.com has been made available under a creative commons attribution non commercial no derivatives 4.0 license

healthcare for all at affordable prices is still a major but universally elusive goal everyone spends money on healthcare and it is the most impoverishing consumption item thus most governments and the united nations promote universal health coverage each country s unique blend of tools for healthcare financing including taxes subsidies and market controls most people in low and middle income countries lmics have no health insurance of any kind and most lmic governments lack the political will information or resources to require their citizens to buy health insurance themselves or to subsidize insurance for all who cannot afford the price this book deals with financing voluntary and contributory health insurance for resource poor and rural groups in lmics this book addresses three

issues the first is how to catalyse demand for health insurance and develop insurance literacy among the largely illiterate and innumerate target population using training programs to build an enabling consensus allowing locals to create and administer such schemes the second involves the process of developing simplified methods for risk assessment which can help to underwrite risks price the micro health insurance schemes and ensure proper implementation the third issue is formulating a compelling business case which would make this health insurance affordable financially sustainable and operationally scalable this book develops insurance education and financial literacy for students of economics business administration insurance development studies and social work to prepare them for practical work as implementers policymakers or evaluators a supplementary section for teachers and students includes comprehension questions
