capitol hill baptist church associate pastor michael lawrence contributes to the ixmarks series as he centers on the practical importance of biblical theology to ministry he begins with an examination of a pastor's tools of the trade exegesis and biblical and systematic theology the book distinguishes between the power of narrative in biblical theology and the power of application in systematic theology but also emphasizes the importance of their collaboration in ministry having laid the foundation for pastoral ministry lawrence uses the three tools to build a biblical theology telling the entire story of the bible from five different angles he puts biblical theology to work in four areas counseling missions caring for the poor and church state relations rich in application and practical insight this book will equip pastors and church leaders to think preach and do ministry through the framework of biblical theology

disziplinäre grenzen überschreitend zielt der band darauf ab die visualisierung mohammeds in der westlichen welt vis à vis mit dessen darstellung im islam zu untersuchen dabei wird das material weder geographischen oder sprachlichen sphären zugeordnet noch werden textquellen isoliert von bildlichen darstellungen

betrachtet die beiträge eröffnen vielmehr einen thematischen und theoretischen dialog über die frage wie der prophet in verschiedenen kulturellen traditionen in europa und amerika und in der welt des islam vom mittelalter bis in die gegenwart vergegenwärtigt wurde

this handbook describes the ways in which 50 countries from every continent except antarctica have devised measures to protect children from maltreatment and exploitation the handbook discusses the legislative responses public administrative systems and the social service networks that governments utilize to secure children s safety synthesizing data from across the world the authors suggest a global typology of child protection systems for understanding the diversity of service responses

ordering customs is an intellectual and cultural history of the production and circulation of ethnographic knowledge in early modern venice it examines how a range of figures diplomats bureaucrats printers readers and ordinary venetians produced used and circulated information about customs from the sixteenth through the early seventeenth centuries

the world has never been richer than today the distribution of our global wealth however is hugely biased since 1980 the gains were mainly captured by the rich the top 1 obtained twice as much of the income growth as compared to the bottom 50 nevertheless within economics debates about inequality have remained rather marginal despite long term research by renowned scholars such as tony atkinson within the public arena concerns about inequality emerged as a result of a number of developments first the global financial crisis in 2008 exposed the risks of the financing of the economy secondly 2013 thomas picketty s book capital in the 21st century demonstrated that against the trend of the overall 20th century capital returns outstrip the gains through economic growth in recent decades thus threatening social coherence and democratic institutions and thirdly the millennium campaign presented impressive achievements regarding poverty but stirred doubts whether the most deprived were left even further behind since 2015 then the stated aim of sdg 10 is to reduce inequality within and among countries there is growing consensus that economic growth is not sufficient to reduce poverty and that our efforts to make it more inclusive so far were insufficient the very first step reduce inequality is to adopt a systemic perspective allowing an integrative analysis covering both ends of the ladder policies should be universal in principle and pay attention to the needs of disadvantaged and marginalized populations predicated on comparison inequality reminds us that it s not enough to study lower earners and the poor instead the term demands that we expand our perspective scrutinizing how economic value is generated accumulated at whose cost and not least how the overall system could be made fairer transitioning to reduced inequalities therefore explores inequality trends worldwide offers a debate on different measures and comparative perspectives highlights key actors who either benefited or suffered from recent economic trends and explores policy options to reduce inequality and thus contribute to sdg 10 the volume considers particularly conceptual frameworks with regards to the inequality debate the relationship between poverty reduction economic growth and inequality measures of inequality overlooked bypassed groups in developing countries analysis on income wealth growth for different groups in the global north discussion about

policies to reduce inequality and further research in the realm of inequality transitioning to reduced inequalities is part of mdpi's new open access book series transitioning to sustainability with this series mdpi pursues environmentally and socially relevant research which contributes to efforts toward a sustainable world
