this title was first published in 2003 this book assumes a viewpoint practically absent from contemporary economics and readdresses the first fundamental question of economics how should we decide how scarce resources should be allocated among competing uses by focusing on this question the book necessarily reconstitutes the link between ethics and economics thus the book deals with a crucial topic the moral assessment of the market mechanism as a tool for allocating scarce resources the key tenet of the book is that the market achieves ends that transcends itself ends that must remain the prerogative of civil society questions of the foundations of moral philosophy are considered allocating scarce resources is shown to be an

exclusively human capacity which means that the market is unable to determine such issues endogenously an intuitionist approach to moral philosophy is developed and this is placed in the context of the history of western moral philosophy the argument encompasses mathematical logic philosophy of mind moral philosophy and economics this key book will appeal to anyone interested in economics and ethics and the role of the state

the emergence of specialized markets has profoundly improved the means of market access enriched the driving forces of value chains and changed the business environment for small firms in the developing world this ground breaking book summarizes the experience of specialized markets in a systematic manner specialized markets are a unique product of china s economic transition they are marketplaces located in industrial clusters specializing in the wholesale of local commodities and related goods ding ke reveals that despite their seemingly primitive form specialized markets appeared in many of the modern industrial sectors and were paradoxically upgraded and expanded as these clusters developed he argues that specialized markets have also formed solid linkages with marketplaces in various cities in china and in other developing economies a powerful emerging market oriented distribution system has thus appeared based on thorough fieldwork covering ten years and using the novel theory of the platform this book clarifies the unique development logic of specialized markets specialized markets have thoroughly changed the business environment for smes in developing countries and greatly enriched the general understanding concerning sme development this book will prove invaluable for sme chinese economy and platform researchers management scientists and managers in multinational firms focusing on bottom of the pyramid markets will also find plenty of interesting information in this enlightening compendium
