letting go of self destructive behaviors offers inspiring hopeful creative resources for the millions of male and female adolescents and adults who struggle with eating disorders addictions any form of self mutilation it is also a workbook for the clinicians who treat them using journaling exercises drawing and collaging prompts guided imagery visualizations and other behavioral techniques readers will learn how to understand compassionately work with and heal from their behaviors rather than distracting from or fighting against them which can dramatically reduce internal conflict and instill genuine hope techniques are provided in easy to follow exercises that focus on calming the body containing overwhelming emotions managing negative and distorted thoughts re grounding from flashbacks addressing tension and anxiety decreasing a sense of vulnerability strengthening assertiveness and communication skills and accessing inner wisdom this workbook can be used in conjunction with treating self destructive behaviors in trauma survivors 2nd ed also by lisa ferentz to allow therapists and their clients to approach the behaviors from the same strengths based perspective workbook exercises can be completed as homework assignments or as part of a therapy session in either case the client is given the opportunity to process their work and share their insights with a compassionate witness and trained professional making the healing journey even safer and more rewarding

this book provides a critical and a conceptual analysis of radical islamist rhetoric drawn from temporally and contextually varied islamist extremist groups challenging the popular understanding of islamist extremism as a product of a clash of civilizations arguing that the essence of islamist extremism can only be accurately understood by drawing a distinction between the radical islamist explanations and justifications of violence the author posits that despite the radical islamist contextualization of violence within islamic religious tenets there is nothing conceptually or distinctly islamic about islamist extremism she engages in a critical analysis of the nature of reason in radical islamist rhetoric asserting that the radical islamist explanations of violence are conceptually reasoned in terms of existential hegelian struggles for recognition as fundamentally struggles against oppression and the radical islamist justifications of violence are conceptually reasoned in terms of moral consequentialism with a detailed analysis of islamist extremist discourse spanning a wide range of contexts this book has a broad relevance for scholars and students working in the field of islamic studies religious violence philosophy

and political theory

the philosophy of science fiction henri bergson and the fabulations of philip k dick explores the deep affinity between two seemingly quite different thinkers in their attempts to address the need for salvation in and from an era of accelerated mechanization in which humans capacity for destroying or subjugating the living has attained a planetary scale the philosopher and the science fiction writer come together to meet the contradictory imperatives of a realist outlook a task which arguably philosophy and science fiction could only ever adequately undertake in collaboration their respective approaches meet in a focus on the ambiguous status of fictionalizing or fabulation as simultaneously one of mechanization s most devastating tools and the possibility of its undoing when they are read together the complexities and paradoxes thrown up by this ambiguity with which both bergson and dick struggle on their own open up new ways to navigate ideas of mechanism and mysticism immanence and transcendence and the possibility and meaning of salvation the result is at once an original reading of both thinkers a new critical theory of the socio cultural political and ethical function of fictionalizing and a case study in the strange affinity at times the uncanny similarity between philosophy and science fiction

a quarterly review of philosophy

includes the proceedings of the connecticut state medical society

the unholy alliance of the political right and the religious right threatens to destroy the america we love it also threatens to generate a popular aversion to god and religion by identifying religious values with a pro war pro business pro rich anti science and anti environmental stance over the past few decades the republicans have achieved political dominance by forging a union

with the religious right this marriage has provided a sanctimonious veneer for policies that have helped the rich get richer while ignoring the needs of the middle class and the poor dismantling environmental and civil liberties protections and seeking global domination the right champions the materialism and ruthless selfishness promoted by unrestrained capitalism and then laments the moral crises of family instability and loneliness experienced by people who bring these commercial values into their homes and personal lives in response the religious right offers insular communities for the faithful and a culture that blames liberals activist judges homosexuals independent women and all secular people for the moral and spiritual emptiness so many americans experience yet however distorted both the right s analysis and its solutions to america s spiritual crisis may be it wins allegiance by addressing the human hunger for a life with some higher purpose the left by contrast remains largely tone deaf to the spiritual needs of the american people it is the yearning for meaning in life not just the desire for money or power that lies at the core of american politics addressing the central mystery of contemporary politics why so many americans vote against their own economic interests the left hand of god provides an invaluable timely and blunt critique of the current state of faith in government lerner challenges the left to give up its deeply held fear of religion and to distinguish between a domination oriented right hand of god tradition and a more compassionate and hope oriented left hand of god worldview further lerner describes the ways that democrats have misunderstood and alienated significant parts of their potential constituency to succeed again lerner argues the democratic party must rethink its relationship to god champion a progressive spiritual vision reject the old bottom line that promotes the globalization of selfishness and deal head on with the very real spiritual crisis that many americans experience every day lerner presents a vision that incorporates and then goes far beyond contemporary liberal and progressive politics he argues for a new bottom line in our economy schools and government this is a fundamentally fresh approach one that takes spiritual needs seriously in our economic and political lives presenting an eight point progressive spiritual covenant with america lerner provides a blueprint for how the democratic party can effectively challenge the right and position itself to win the white house and congress by appealing to religious secular and spiritual but not necessarily religious people the left hand of god blazes a trail that could change our world and reclaim america from the religious right

report of the dominion fishery commission on the fisheries of the province of ontario 1893 issued as an addendum to vol 26 no 7
