this book is a guide to diversity equity and inclusion in the american music industry from the perspectives of different segments of society african american hispanic latino indigenous women asian lgbtq mental illness disorder and physically disabled different socioeconomic status and religion with the music industry s entrepreneurial activities being that of cultural monetization analysis of the work of laura mulvey and her concept of the male gaze specifically the heterosexual white male suggests that the societal lens used to view all segments of society are in the hands of a group that does not understand the historical nuances that shape the culture and current actions of each group represented and the current lived

experiences of each segment in society whose culture is monetized this showcases a gap in understanding that presents an opportunity for deep cultural appreciation once the individual perspectives of each group are added to the collective mind this volume will be unique in that it will provide an overview of each group's history in america their current societal and music industry state and possible solutions with care taken to give voice to scholars from each community an example of the need for this work comes from the african american community where rappers have been consistently jailed for rap lyrics since the 1980s based on the assumption that rap was started by gang members this shows the power of untrue societal assumptions in affecting laws that negatively affect a group even though they are based on untruths that are perpetuated by executives focusing mainly on the bottom line of their company control of culture and social learning through media showing a lack of artistic autonomy artists who sign with major labels often protest the content they are asked to create and release but must comply or remain in predatory contracts outside of sociology and media studies which give broad overviews of each segment there is no book that presents readers with historical documentation a view of each group from multiple vantage points internal and external and how their history and social perceptions intersect in the music industry system to create crystalized pieces of culture that are filtered through the lens of capitalism

tyler the creator has emerged as one of the most influential pop culture figures of his generation from his work as the leader and co founder of the music collective odd future to his latest solo albums and grammy awards he has shown himself to be a force to be reckoned with while he is best known for making hip hop music he wears many other artistic hats tyler the creator is also a music producer director actor writer and more

tyler the creator redefining genius breaking boundaries takes you beyond the music beyond the headlines and deep into the mind of one of the most revolutionary artists of our time this is not just another biography it's an unfiltered exploration of how a rebellious visionary transformed the worlds of music fashion and culture with fearless creativity and unapologetic authenticity from his early days as the mastermind behind odd future to his grammy winning evolution as a genre bending artist this book uncovers exclusive details about tyler's creative process personal struggles and the controversies that shaped his path with never before seen insights into his artistic genius business empire and the cultural movements he helped ignite this book offers a perspective on tyler the creator that no fan or critic can afford to miss whether you're a die hard fan or someone fascinated by the minds that shape modern artistry this is the definitive account of a creator who refuses to be defined

a leading legal scholar offers a compelling new theory to explain the meteoric rise of non fungible tokens nfts and their impact on art business entertainment and

society and explains how they are revolutionizing our understanding of ownership if you buy an nft do you own anything critics say no then why are people spending so much money to own them to the tune of 27 billion in 2021 and why are big businesses and venture capital firms investing hundreds of millions to develop nfts for people s use in the metaverse a purely imaginary world in creators take control edward lee offers a compelling new theory he calls tokenism that answers these perplexing questions using vivid examples lee lucidly explains how nfts operate and how they fundamentally change our understanding of ownership tokenism is an artistic cultural and technological movement that creates value in a new kind of ownership of a new type of property symbolized by a virtual token through a process of technological abstraction and artificial scarcity effectuated by nfts ownership becomes virtual what cubism did in radically changing the twentieth century perspective of creating and viewing art through cubes tokenism does today in altering our perspective of owning art and other things through tokens both movements radically reimagine what s possible creators and businesses have seized upon this profound transformation in a short time they have developed a new market for digital art important new rights for creators innovative business models based on decentralized collaboration and a new type of interactive ownership that enables identity community and patronage through nfts these innovations are just the start of revolutionary changes to society lee shows how nfts create a new form of decentralized intellectual property or de ip comparable to the movement to decentralized finance defi de ip empowers creators to take control of their artistic productions and livelihood lee s intellectual tour de force is filled with practical insights and hope for fostering creativity and a virtual renaissance for the ages
