through interviews with some of today s most accomplished and renowned concert and operatic singers master singers provides vocalists making the transition from student to professional with indispensable advice on matters ranging from technique and its practical application for effective stage projection to the practicalities of the business of professional singing and maintaining a career to recommendations for vocal hygiene and longevity in singing

has the virtual invaded the realm of the real or has the real expanded its definition to include what once was characterized as virtual with the continual evolution of

digital technology this distinction grows increasingly hazy but perhaps the distinction has become obsolete perhaps it is time to pay attention to the intersections mutations and transmigrations of the virtual and the real certainly it is time to reinterpret the practice and study of music the oxford handbook of music and virtuality edited by sheila whiteley and shara rambarran is the first book to offer a kaleidoscope of interdisciplinary perspectives from scholars around the globe on the way in which virtuality mediates the dissemination acquisition performance creation and reimagining of music the oxford handbook of music and virtuality addresses eight themes that often overlap and interact with one another questions of the role of the audience artistic agency individual and communal identity subjectivity and spatiality repeatedly arise authors specifically explore phenomena including holographic musicians and virtual bands and the benefits and detriments surrounding the free circulation of music on the internet in addition the book investigates the way in which fans and musicians negotiate gender identities as well as the dynamics of audience participation and community building in a virtual environment the handbook rehistoricizes the virtual by tracing its progression from cartoons in the 1950s to current industry innovations and changes in practice well grounded and wide reaching this is a book that students of any number of disciplines from music to cultural studies have awaited

the new edition of this popular anthology brings together the best recent essays by distinguished geographers on region music and their interrelatedness while emphasizing the regional nature of american music the book introduces geographical concepts such as location factors spatial organization distribution and diffusion the study follows the paths of four types of american folk and popular music gospel country jazz and rock from their origins to their geographic centers

this study investigates the idea and practice of liveness in modern music understanding what makes music live in an ever changing musical and technological terrain is one of the more complex and timely challenges facing scholars of current music where liveness is typically understood to represent performance and to stand in opposition to recording amplification and other methods of electronically mediating music the book argues that liveness itself emerges from dynamic tensions inherent

in mediated musical contexts tensions between music as an acoustic human utterance and musical sound as something produced or altered by machines sanden analyzes liveness in mediatized music music for which electronic mediation plays an intrinsically defining role exploring the role this concept plays in defining musical meaning in discussions of music from both popular and classical traditions sanden demonstrates how liveness is performed by acts of human expression in productive tension with the electronic machines involved in making this music whether on stage or on recording liveness is not a fixed ontological state that exists in the absence of electronic mediation but rather a dynamically performed assertion of human presence within a technological network of communication this book provides new insights into how the ideas of performance and liveness continue to permeate the perception and reception of even highly mediatized music within a society so deeply invested on every level with the use of electronic technologies

bruce springsteen has been cherished by his fans for decades from his early days playing high school gymnasiums through globally successful albums and huge stadium shows to solo performances in intimate theaters as his long and illustrious career has evolved the legendary devotion of his fans has remained a constant springsteen fans have become worthy of study in their own right with books memoirs and even a movie documenting their passion and perspectives but his fans are not monolithic and surprisingly little attention has been paid to why so many women from across the world adore the boss mary climbs in illuminates this once overlooked but increasingly important and multi faceted conversation about female audiences for springsteen s music drawing on unique surveys of fans themselves the study offers insight into women s experiences in their own voices authors lorraine mangione and donna luff explore the depth of women fans connection to springsteen and the profound ways this connection has shaped their lives reflections from fans enliven each page as readers journey through the camaraderie and joy of concerts the sorrow and confusion of personal loss and suffering the love and closeness of community and the search for meaning and for the self viewed through a psychological lens women fans relationship with springsteen is revealed in all its complexity as never before mary climbs in is an important interdisciplinary contribution to the growing field of springsteen studies and a must read for any fan

she was recognized as one of canada s most promising dance acts before moving to los angeles where she recorded jagged little pill with glen ballard

this new study of british popular music shows how it engages with class in mythical ways that allow audiences to perform class based identities case studies on folk rock punk and indie rock show how this performance works and explore the implications for listeners and audiences

this book focuses on three aspects in glenn gould s 1932 1982 musical thought and practice gould s embrace of music technology his notions of the ontology of music and musical interpretation and the place of his thought in canadian intellectual history focusing not only on gould s writings on music technology but also on those of marshall mcluhan 1911 1980 and jean le moyne 1913 1996 this book provides a fresh perspective on gould s thinking which was embedded in and keenly alert to the intellectual world outside music the book also touches on gould s public reception his national iconicity in canadian literature and hollywood movies gould s stardom is discussed as a phenomenon more commonly associated with contemporary popular culture
