kay have been in each other's lives they have always had one another's back whether they were fighting other squads during homeroom or boosting outfits for college frat parties neither girl has ever questioned the when what where or why of their actions for them riding for each other was automatic when bobbi presents her girls with a plan that would eliminate their financial burdens and have them set for life one by one they jump on board never in a million years would they have imagined that this perfectly planned heist would be the very thing that put their lifelong friendships to the test

what was a holiday in the costa smeralda of the 1960s or 1990s really like can we recreate reimagine or re experience that feeling in a world of rapid change the island on an island a cultural history of costa smeralda examines how northeastern sardinia one of the most stunning areas in the world became an artificial paradise constantly adapting to present tourists with the latest version of paradise they desire by viewing tourism not merely as a break from daily life but as an ever evolving current at the heart of culture and society this book explores how costa smeralda has never remained fixed the media system has played a pivotal role in this process since the 1990s media itself has become the very substance of what is communicated perfectly illustrating jean baudrillard's insight that the media produce maps of reality that overlap the real territory to the point where people no longer perceive actual reality but only its mediated forms over time numerous layers both literal and figurative have obscured the original land that peasants and shepherds once sold cheaply to wealthy entrepreneurs in tandem media and tourism have consistently created an ideal environment for those in power now that this trend is slowing no one knows which new paradise will emerge in costa smeralda it is clear however that emerging forms of cultural experiential and sustainable tourism share little in common with today's costa smeralda suggesting that its current model is in need of rethinking
