a bold and impassioned meditation on injustice in our country that punctures the illusion of a postracial america and reveals it as a place where authoritarianism looms large whether the issues are protest labor patriotism or class division it is clear that professional sports are no longer simply fun and games rather the industry is a hotbed of fractures and inequities that reflect and even drive some of the most divisive issues in our country the nine provocative and deeply personal essays in full dissidence confront the dangerous narratives that are shaping the current dialogue in sports and mainstream culture the book is a reflection on a culture where african americans continue to navigate the sharp edges of whiteness as citizens who are always at risk of being told often directly from the white house to go back to where they came from the topics howard bryant takes on include the player owner relationship the militarization of sports the myth of integration the erasure of black identity as a condition of success and the kleptocracy that has forced america to ask itself if its beliefs of freedom and democracy are more than just words in a time when authoritarianism is creeping into our lives and is being embraced in our politics full dissidence will make us question the strength of the bonds we think we have with our fellow citizens and it shows us why we must break from the malignant behaviors that have become normalized in everyday life

in this revised edition of their concise readable yet wide ranging book greg berman and aubrey fox tackle a question students and scholars of law criminology and political science constantly face what mistakes have led to the problems that pervade the criminal justice system in the united states the reluctance of criminal justice policymakers to talk openly about failure the authors argue has

stunted the public conversation about crime in this country and stifled new ideas it has also contributed to our inability to address such problems as chronic offending in low income neighborhoods an overreliance on incarceration the misuse of pretrial detention and the high rates of recidivism among parolees berman and fox offer students and policymakers an escape from this fate by writing about failure in the criminal justice system their goal is to encourage a more forthright dialogue about criminal justice one that acknowledges that many new initiatives fail and that no one knows for certain how to reduce crime for the authors this is not a source of pessimism but a call to action this revised edition is updated with a new foreword by cyrus r vance jr and afterword by greg berman

criminal justice reform presents a comprehensive examination of america s legal system focusing on the striking reality that the united states with just 5 of the world s population houses 25 of global prison inmates this data driven analysis explores the interconnected challenges of structural inequities mass incarceration s economic impact and the potential of evidence based rehabilitation programs to transform the current system the book methodically progresses from an historical overview of criminal justice since the 1970s through detailed examinations of key issues like mandatory minimum sentences and three strikes laws by combining quantitative data from the bureau of justice statistics with qualitative research from legal scholars and criminologists it builds a compelling case that current

practices often perpetuate rather than prevent criminal behavior the analysis is particularly noteworthy for its integration of international perspectives examining successful reform models from countries like norway and portugal what sets this work apart is its practical approach to reform offering concrete solutions backed by empirical evidence rather than theoretical frameworks alone the book explores emerging strategies such as risk assessment tools and restorative justice practices while carefully evaluating their effectiveness for practitioners and policymakers it provides detailed implementation guidelines complete with cost benefit analyses making it an invaluable resource for anyone seeking to understand or advance meaningful changes in america s criminal justice system

this is what we know and we know it better than anyone else from the introduction by vivian nixon and daryl v atkinson a thoughtful and surprising cornucopia of ideas for improving america s criminal justice system from those most impacted by it when the new press the center for american progress and the formerly incarcerated and convicted peoples and family movement issued a call for innovative reform ideas over three hundred currently and formerly incarcerated individuals responded what we know collects two dozen of their best suggestions each of which proposes a policy solution derived from their own lived experience ideas run the gamut a man serving time in indiana argues for a prison labor standards act calling for us to reject prison slavery a nebraska man who served a federal prison term for white collar crimes suggests offering courses in entrepreneurship as a way to break down barriers to employment for people returning from incarceration a woman serving a life sentence in georgia spells out a system of earned privileges that could increase safety and decrease stress inside prison and a man serving a twenty five year term for a crime he committed at age fifteen advocates powerfully for eliminating existing financial incentives to charge youths as adults with contributors including nationally known formerly incarcerated leaders in justice reform twenty three justice involved individuals add a perspective that is too often left

out of national reform conversations

this handbook provides a holistic and comprehensive examination of issues related to criminal justice reform in the united states from a multidisciplinary perspective divided into five key domains of reform in the criminal justice system it analyzes policing policy and sentencing reentry treatment alternatives to incarceration each section provides a history and overview of the domain within the criminal justice system followed by chapters discussing issues integral to reform the volume emphasizes decreasing incarceration and minimizing racial ethnic and economic inequalities each section ends with tangible recommendations based on evidence based approaches for reform of interest to researchers scholars activists and policy makers this unique volume offers a pathway for the future of criminal justice reform in the united states

why is there continued racial disparity within the american criminal justice system is it a natural propensity for crime is it a racist criminal justice system is it a culture of poverty is it the war on drugs is it dysfunctional family structures is it choices is it economics is it spiritual issues is it a lack of education is it mental health is it identity among the various issues within crime and punishment and the fact that african americans and other minorities disproportionately engulf the prisons jails and probation caseloads why is it that so many are in the criminal justice system and continue to be at rates that continuously plague american communities how about the aspects of historical trauma and improper identity paradigms how about the fact that criminality has become normality how about the old biblical adage that as a man thinks so is he there is a cultural identity crisis in many that frequent the criminal justice system and amid the various efforts to correct and change behavior address therapeutic measures and ensure that the criminal justice system yields evidence based practices and strength based treatment modalities the system sadly lacks the cultural competence that would

change the new jim crow and the face of crime in america as much as activism and advocacy have rightfully focused on the racist aspects of a criminal justice system that has improperly and historically overloaded the system the movement must be more thorough after generations of minorities were incarcerated and overwhelmed by the collateral consequences of imprisonment there must be a more in depth focus on keeping minorities out of the system breaking a historical trauma that has grown over centuries the system must incorporate ethnocentric treatment components focused on changing identity paradigms what would that mean and why is this important
