one of the major discussions in the business world is how do we get our human capital assets more engaged in the organization current gallup polls state that 85 of our employees are not engaged within their organizations employee empowerment fully analyzes this workplace condition which is a major concern for most ceos the solution proposed by this book is the introduction of the tils theory of constraints lean six sigma continuum empowerment model which comprises three levels of empowerment management cross functional team and individual the first is the empowerment that comes from upper management to the organization as a whole the second level is the empowerment that comes from the various cross functional teams and the final level is from the individuals themselves through their ability to take ownership in the processes in which they are involved the end solution in the book is that if we can get the human capital assets to take ownership of the processes that is empower the front line employees it will increase the level of engagement if they become more engaged they will empower the organization at all levels to introduce sustainable change management to resolve problems within the organization one of the tools of individual empowerment is the use of the six sigma toolbox this book makes the case that when human capital assets take ownership of the processes then we have greater engagement and thus a more empowered organization

empowering women entrepreneurs in rural communities is vital for achieving sustainable development goals sdgs it promotes gender equality by providing women with equal access to economic opportunities and decision making roles enabling them to drive community development and alleviate poverty digital tools and skills allow rural women to access broader markets and innovate solutions to local challenges fostering economic growth and environmental sustainability women entrepreneurs address critical needs like education healthcare and agriculture while adopting eco friendly practices that support climate action by supporting rural women entrepreneurship in the digital age communities can advance toward a more equitable and sustainable future empowering women through rural sustainable development and entrepreneurship emphasizes the importance of rural women entrepreneurship and uncovers the potential in this area with a specific focus on contributing to the achievement of sdgs through real world examples and practical strategies it highlights how empowering women with resources skills and technology

can bridge gender gaps and accelerate progress toward global sdgs covering topics such as digital tools misogyny and women s studies this book is an excellent resource for entrepreneurs business leaders and managers policymakers researchers academicians and more

what is it about the top tech product companies such as amazon apple google netflix and tesla that enables their record of consistent innovation most people think it s because these companies are somehow able to find and attract a level of talent that makes this innovation possible but the real advantage these companies have is not so much who they hire but rather how they enable their people to work together to solve hard problems and create extraordinary products as legendary silicon valley coach and coach to the founders of several of today s leading tech companies bill campbell said leadership is about recognizing that there s a greatness in everyone and your job is to create an environment where that greatness can emerge the goal of empowered is to provide you as a leader of product management product design or engineering with everything you ll need to create just such an environment as partners at the silicon valley product group marty cagan and chris jones have long worked to reveal the best practices of the most consistently innovative companies in the world a natural companion to the bestseller inspired empowered tackles head on the reason why most companies fail to truly leverage the potential of their people to innovate product leadership the book covers what it means to be an empowered product team and how this is different from the feature teams used by most companies to build technology products recruiting and coaching the members of product teams first to competence and then to reach their potential creating an inspiring product vision along with an insights driven product strategy translating that strategy into action by empowering teams with specific objectives problems to solve rather than features to build redefining the relationship of the product teams to the rest of the company detailing the changes necessary to effectively and successfully transform your organization to truly empowered product teams empowered puts decades of lessons learned from the best leaders of the top technology companies in your hand as a guide it shows you how to become the leader your team and company needs to not only survive but thrive

exploring the growing phenomenon of women gun owners in middle america this book challenges the conventional narratives that often dominate discussions of gun culture by applying a feminist and critical cultural framework a gun of her own the

everyday lives of women who shoot argues that for many women guns are not merely tools for protection but powerful symbols of agency and autonomy this book examines how women navigate gun culture revealing a unique ethic of care and responsibility that shapes their experiences rather than focusing on policy or gun violence this study explores the everyday realities of women who own and use firearms at the intersection of gender identity and gun ownership it is a book about how women come to guns learn about them think about them and shoot with them

the most complete treatment i ve seen on the subject if you re making the move to self directed work teams this is the book to read chuck day editor in chief industry weekempowered teams provides the frank answers to questions about how teams work what makes them effective when they are useful how to get them going and how to maintain their vigor and productivity over the long haul draws on a survey of over five hundred organizations and an in depth study of twenty eight companies conducted jointly by industry week and the association for quality and participation
