laoism is the first ever book on the complete teachings of lao zi an ancient chinese philosopher sage it is also the first english depiction to distinguish lao zi s teachings from taoism a native religion of china endless revelations and commentaries on his text of tao te ching text have been and continuously exist in chinese and many other languages but not yet a complete work between the text and its poetic summary the lao zi s self invented fourteen character couplet the couplet as old as the text has been circulating secretively only in a few monasteries this makes the writers throughout the history not being able to get a full picture on his work and the public inaccessible the completion of such a project must be a combination of the spiritual inclination into the text and the heart sealed connection with lao zi s spirit the time has come

when we are called to minister to the dying and or bereaved many of us who count ourselves as servants of god too easily prejudge the matter and rush in with words and a trite formula words have become our trade jargon our bane and verbiage our downfall bert walsh knows this all too well only in the last of five chapters does he get around to the things which we are to say in the presence of crisis but those are words we have long ago learned from reading the new testament or heard time and again from well meaning consolers what is crucial is that which comes before those words are spoken and surrounds them from the foreword by g clarke chapman jr believing that death and bereavement present pastors and believers with the most extreme challenges to faith bert walsh

carefully examines the potential for new discoveries greater personal growth and maturity in faith offered to those who minister to the dying and bereaved with his uncommon insight and measured simple purposeful style the author helps those who minister to the grieving to develop a new sensitivity to both spoken and unspoken needs he expertly demonstrates that there is a time for words of solace and consolation there is also a time for silence a time for touching a time to share tears periods of silence no longer need to be awkward or uncomfortable rather they can become productive moments of quiet reflection and prayer

eynat confino goes beyond the usual consideration of craig s purported theories of the actor scenery and the scene painter to get at the heart of craig s idea of theater she draws not only on the research of contemporary craig scholars but on material hitherto unavailable his writings and daybooks and the writings of friends she ties craig s encounter with isadora duncan to a decisive modification in his notion of movement to have an instrument more controllable than the actor he invented the über marionette a giant puppet craig also invented the scene a kinetic stage the screens that brought him worldwide fame were simply an adaptation of this concept eynat confino argues that a scenario craig wrote in 1905 here published for the first time reveals a theosophical system like that of blake a system that was the main force motivating craig s artistic quest in her final chapter she carefully examines the psychological aesthetic and circumstantial factors that kept craig from completing his work to bring friendliness humor love ease peace to the world

in his introduction william rothman provides an overview of cavell s work on film and his aims as a philosopher more generally book jacket
