studies of millinery tend to focus on hats rather than the extraordinarily skilled workers who create them american milliners and their world sets out to redress the balance examining the position of the milliner in american society from the 18th to the 20th century concentrating on the struggle of female hat makers to claim their social place it investigates how they were influenced by changing attitudes towards women in the workplace drawing on diaries etiquette books trade journals and contemporary literature stewart illustrates how making hats became big business but milliners working conditions failed to improve taking the reader from the industrial revolution of the 1760s to the sexual revolution of the 1960s and from belle epoque feathers to elegant cloches and jackie kennedy s pillbox hat the book offers a new insight into the rise and fall of a fashionable industry beautifully illustrated and packed with original research american milliners and their world blends fashion history and anthropology to tell the forgotten stories of the women behind some of the most iconic hats of the last three centuries

this volume presents a timely contribution to the growing body of scholarship on the apocryphal

writings and their reception in the middle ages especially in connection with visual representation it aims to bridge what often remains disconnected the visual art and the written text the early christian roots and medieval reception the east and the west as well as methodologies of various disciplines the studies in this volume firstly investigate issues related to the virgin mary and through them also the status function and identity of women mary and the female element thus represent significant models and or background figures in fields pertaining to theology religious studies textual studies manuscript studies and art history in a trans disciplinary perspective secondly the studies focus on the apostles and the last judgment their visual representations and the use of apocryphal sources the volume is divided in two parts according to two major topics part i dealing with mary in the apocrypha and part ii focusing on the apostles and the last judgment

geared towards parents with children between the ages of two and twelve fun with the family virginia features interesting facts and sidebars as well as practical tips about traveling with your little ones

the new zealand born writer katherine mansfield associated intimately with many members of the bloomsbury group but her literary aesthetics placed her at a distance from the artistic works of the group with chapters written by leading international scholars katherine mansfield and the bloomsbury group explores this conflicted relationship bringing together biographical and critical studies the book examines mansfield s relationships personal and literary with such major modernist figures as virginia woolf t s eliot aldous huxley and walter de la mare as well as the ways in which her work engaged with and reacted against bloomsbury in this way the book reveals the true extent of mansfield s wider influence on 20th century modernist writing

the book is intended for all those who are interested in application problems related to dynamical systems it provides an overview of recent findings on dynamical systems in the broadest sense divided into 46 contributed chapters it addresses a diverse range of problems the issues discussed include finite element analysis of optomechatronic choppers with rotational shafts computational based constrained dynamics generation for a model of a crane with compliant support model of a kinetic energy recuperation system for city buses energy accumulation in mechanical resonance hysteretic properties of shell dampers modeling a water hammer with quasi steady and unsteady friction in viscoelastic conduits application of time frequency methods for the assessment of gas metal arc welding conditions non linear modeling of the human body s dynamic load experimental evaluation of mathematical and artificial neural network modeling for energy storage systems interaction of bridge cables and wake in vortex induced vibrations and the sommerfeld effect in a single dof spring mass damper system with non ideal excitation
