executive orders are used by presidents in the united states to pass directives without congress approval the very first executive order was signed by george washington in 1789 the year the presidential office was officially created they have been used hundreds of times throughout the history of the states but this project focuses solely on a few of the 55 executive orders president trump released within his first year of presidency donald trump has become a household ame not only in the united states but globally as well when he took office in 2017 he immediately began releasing new directives that have since become the topic of conversation in human rights offices across the world by analyzing trump s executive orders relative to immigration then comparing the orders to the universal declaration of human rights and scholars definitions of a violation of human rights a concrete conclusion will be produced as to if a violation is present the universal declaration of human rights released by the united nations in 1948 is used as the basis for this analysis as it is the document currently used by the un to protect global citizens human rights and was signed by the united states because this declaration is considered a standard measurement of human rights it is only fair that it should be the final say for or against trump s directives

shatters the system of checks and balances on January 25 2017 Trump signed an executive order entitled border security and immigration enforcement improvements aiming at enhancing the enforcement of border security along the US-Mexican border by way of the construction of a 2 000 mile border wall after losing a fight with the Democratic-led House concerning the identified expenses of 8.1 billion for the wall President Trump declared on February 15 2019 a national emergency concerning the situation on the southern border of the United States under the National Emergency Act. By doing so President Trump could have eventually undermined the legislative branch as Congress traditionally holds the power of the purse on ground of potential infringement of the appropriations clause of the constitution and the Administrative Procedure Act. As the Congress passed a joint resolution to void the President's national emergency declaration which was however vetoed by the President himself the issue with the construction of the US-Mexican border wall is deeply rooted in the power struggle of both the executive branch the President including his subordinate institutions from the government most notably the White House and the Cabinet and the legislative branch the two chambers of the Congress the House of Representatives and the Senate. This emergency declaration could have infringed one of the basic principles of the separation of powers as manifested and practised in the US constitutional law enabling the President to act independently ultimately disregarding constitutional allocation on funding matters as in the prevailing case.

During his years in office from 2009 to 2017 Barack Obama signed more landmark legislation than any Democratic President since Lyndon B. Johnson. He also advocated gun control and issued wide-ranging executive actions concerning climate change and immigration. The presidency of Donald Trump began on January 20 2017. During the first three weeks in the office Trump has issued several consequential presidential orders such as Executive Order 13769 which suspended the admission of refugees into the United States expediting environmental reviews Affordable Care Act pending repeal international trafficking and many more. According to some these orders were aimed to repeal the work of Barack Obama. According to others they represent a determined action long awaited changes and positive progress in this collection you can see in the clearest way the true political program and the goal of both Presidents through their legislation actions and speeches.

diploma thesis from the year 2020 in the subject english language and literature studies linguistics grade 1 university of innsbruck language english abstract othering is a language process which does not only occur in spoken language but also in written nowadays such a negative portrayal and creation of the perfect other is often happening in a rather hidden and indirect manner this paper explores whether donald j trump indulged in the act of othering in his tweets and whether this happened in a direct or indirect way the findings lead to an understanding whether othering is being accepted in politics or not what comes as a blessing has also its downsides as not only positive but also negative opinions are omnipresent on the internet this is due to the possibility to upload almost everything as not every website has a way to censor inappropriate content furthermore having a filter for written or pictured hate crime does not prevent it from happening as it is not always straight forward and hateful messages can come in disguise an uncountable number of these more or less hidden hate crimes are a sort of othering as people tend to put themselves in opposition to others to create a sense of solidarity with those who share sameness and to have some excuse to keep up power relationships with this it becomes clear that language itself in the case of this paper explicitly the written one is a powerful tool to exert authority and domination on others especially when used by people in power like politicians therefore the question this paper tries to answer is how written discourse in the tweets of trump creates the feeling of separation and dominance that underlies the act of othering and whether this reflects a direct or indirect and with this more subtle and normalized use of power discourse in this thesis only those people trump constantly portrays as dangerous foreigners intruders therefore not americans are included in the analysis by looking at how he structures his discourse around them these include mexicans and muslims both to be found under the umbrella term of illegal immigrants

us president donald trump had been in office for exactly a week when he issued an executive order barring the entry of people from seven muslim majority countries and slamming the door on refugees besides documenting the harms caused by the first executive order during the relatively brief period in which it was in effect this briefing paper describes the situations of people who are still awaiting us visas some of whom could be irreparably harmed if the us courts were to rule that the second executive order is constitutional
