us immigration policy has deeply racist roots from his rhetoric to his policies president donald trump has continued this tradition most notoriously through his border wall migrant family separation and child detention measures but who exactly supports these practices and what factors drive their opinions our research reveals that racial attitudes are fundamental to understanding who backs the president s most punitive immigration policies we find that whites who feel culturally threatened by latinos who harbor racially resentful sentiments and who fear a future in which the united states will be a majority minority country are among the most likely to support trump s actions on immigration we argue that while the president s policies are unpopular with the majority of americans trump has grounded his political agenda and 2020 reelection bid on his ability to politically mobilize the most racially conservative segment of whites who back his draconian immigration enforcement measures

this book offers a broad interdisciplinary approach to the changes in the u s immigration debate before and after 9 11 a nation s reaction to foreigners has as much to do with sociology as it does with political science economics and psychology without drawing on this knowledge our understanding of the immigration debate remains mundane partial and imperfect therefore our story accounts for multiple factors including culture and politics power organizations social psychological processes and political change examining this relationship in the contemporary context requires a lengthy voyage across academic disciplines a synthesis of seemingly contradictory assumptions and a grasp of research traditions so vast and confusing that an accurate rendering may seem implausible and yet to tell the story of the immigration debate in the age of terrorism polarization and trump in any other way is to tell it in part the immigration debate in the united states has always been about openness two questions in particular how open should the door be and what type of immigrant should walk through it have characterized policy disputes for well over a century in the current debate expansionists want to see more legal immigrants in the u s and greater tolerance if not respect for immigrants restrictionists favor lower levels of immigration stronger borders and tighter law enforcement measures to stop the stream of illegal migration and alleged crime the aim of this book is to describe how these opposing views materialized in the news media political rhetoric and ultimately in policy much of our argument rests on the idea that history matters that the dominant narrative about immigration is in constant flux and that the winner of the immigration debate is determined by a vector of contextual elements the joint impact of current events enduring traditions and political economic forces our approach to the immigration debate avoids deterministic claims and

grand scale projections although we argue with conviction that a climate of fear played an important role in shaping the debate the fear itself and its effects on social attitudes and public policy were neither inevitable nor necessarily long lasting

of the many issues polarizing societies today immigration is one of the most contentious in the united states as in europe immigration was a defining issue in recent national elections immigration not only involves government policies but also the human rights of millions of people american presidents deportations and human rights violations studies how recent immigration policies in the united states developed during the obama administration and are now being expanded in the first months of the trump presidency documenting the harsh treatment of immigrants over the past twenty years bill ong hing shows how mass detention and deportation of immigrants from clinton s two terms and the bush administration have escalated even higher this book questions what price the united states is willing to pay for such harsh immigration policies in terms of our national values and the impact on the lives of the millions of immigrants who deserve the full protection of universal human rights obligations
