this handbook is proposed to replace the portion of the current handbook for radiological monitoring that deals with protection of people in shelters from radiation from fallout resulting from nuclear war basic information at a high school level is given on how to detect nuclear

radiation how to find and improve the safest places in a shelter the necessity for and how to keep records on individual radiation exposures and how to minimize exposures several new procedures are introduced some of which are based more on theoretical considerations than on actual experiments these procedures include 1 the method of time averaging radiation readings taken with one instrument in different locations of a large shelter while fallout is coming down and radiation levels are climbing too rapidly for direct comparison of readings to determine the safest location 2 the method of using one's own body to obtain directionality in radiation readings taken with a standard civil defense survey meter 3 the method of using mutual shielding to reduce the average radiation exposure to shelter occupants and 4 the ratio method for estimating radiation levels in hazardous areas

eli and his family lived in an underground shelter they called the compound for six years they thought they were the only survivors of a nuclear attack but when eli learned that it was all a twisted experiment orchestrated by his tech visionary father he broke the family out his father died trying to keep them imprisoned now the family must readjust to life in the real world their ordeal has made them so famous they must stay in hiding everyone from fatalists preparing for doomsday to the tabloid media wants a piece of them even worse their father's former adviser continues to control the company eli and his twin brother are the heirs of as eli tries to determine who the family can trust he learns the nightmare of the compound and his father's experiment might not be over the fallout is s a bodeen's highly anticipated thrilling sequel that will keep readers on the edge of their seats
