the author looks at race and justice in the american context including mistreatment of black people by the police he contends that although race is quite often a factor in such mistreatment there are black police officers who also mistreat fellow blacks he states that it is an aspect of the problem that is often ignored or deliberately overlooked because of the prevalence of racism in the american society shielding black police officers from criticism as if they do nothing wrong to fellow blacks and as if it is only white officers who mistreat black people and other non whites he looks at the the case of tyre nichols in memphis tennessee that s just one example where a black man was brutally beaten and killed by five police officers all of them black in january 2023 and contends that mistreatment of black people by black police officers is also a serious problem the five cops were members of the scorpion a unit established to fight crime and which targeted mostly black residents especially men the author further contends that black people can assume responsibility for the safety of their own communities instead of waiting for the police to do that for them there aren t even enough police officers to provide security for everybody and for all communities across the nation he says which is obvious a former resident of detroit himself he gives an example of new era detroit a group that helps to provide security in black communities in detroit and whose efforts have led to the establishment of similar groups in other cities including cleveland atlanta and dallas and has even won the support of the detroit police department he recalls the early seventies when black residents of detroit in the

inner city were under siege at the hands of the members of a decoy police unit called s t r e s s stop the robberies enjoy safe streets it targeted black men mostly in the ghetto almost all of the undercover cops of stres s patrolling the ghetto were black and almost all those killed were black men expect two from 1971 to 1974 the unit was disbanded by the city s first black mayor coleman young who vowed to abolish it when he was campaigning to become mayor some blacks called it a hit squad that had targeted black people to kill black people ironically targeted by black cops and killed by black cops who worked for a system that is unfair to blacks in many cases he has written about s t r e s s in his book and contends that there would be no need for such units to combat crime if black people provided security for themselves in their own communities as new era detroit is doing today even if on a smaller scale but there is room for growth and expansion for such community based security units he also looks at racial injustice as a persistent problem and an integral part of the nation s history a nation that was founded on slavery not on the twin ideals of liberty and equality which explains why racism still is a major problem even today he has provided cases to demonstrate the disproportionate impact racial injustices have on blacks but he also acknowledges that the country has made great progress in pursuit of racial equality the united states today is not the united states in the fifties or even in the sixties he contends

an instant new york times bestseller china has concentration camps now why do westerners claim our sins are unique it is now in vogue to celebrate non western cultures and disparage western ones some of this is a much needed reckoning but much of it fatally undermines the very things that created the greatest most humane civilization in the world in the war on the west douglas murray shows how many well meaning people have been fooled by hypocritical and inconsistent anti west rhetoric after all if we must discard the ideas of kant hume and mill for their opinions on race shouldn t we discard marx whose work is peppered with racial slurs and anti semitism embers of racism remain to be stamped out in america but what about the raging racist inferno in the middle east and asia it s not just dishonest scholars who benefit from this intellectual fraud but hostile nations and human rights abusers hoping to distract from their own ongoing villainy dictators who slaughter their own people are happy to jump on the america is a racist country bandwagon and mimic the language of antiracism and pro justice movements as pr while making authoritarian conquests if the west is to survive it must be defended the war on the west is not only an incisive takedown of foolish anti western arguments but also a rigorous new apologetic for civilization itself
