president barack obama surprised many voters during a pre election interview when he approvingly noted that ronald reagan had changed the trajectory of america in a way that other presidents had not in effect obama was saying that he too aimed to transform america in some fundamental way yet while americans in 1982 may have been divided over reagan s politics at least they knew what he stood for do we really understand obama s vision for our country in his controversial new book veteran journalist stanley kurtz culls together two years of investigations from archives and never before tapped sources to present an exhaustively researched exposÉ of president obama s biggest secret the socialist convictions and tactical ruthlessness he has long swept under the rug a personable figure a thoughtful politician and an inspiring orator obama has hidden his core political beliefs from the american people sometimes by directly misrepresenting his past and sometimes by omitting or parceling out damaging information to disguise its real importance the president presents himself as a post ideological pragmatist yet his current policies grow directly from the nexus of socialist associates and theories that has shaped him throughout his adult life kurtz makes an in depth exploration of the president s connections to radical groups such as acorn uno of chicago the midwest academy and the socialist scholars conferences he explains what modern stealth socialism is how it has changed and how it continues to influence the democratic party he sheds light on what the new york times called a lost chapter of the president s life his years at columbia and proves that obama s youthful infatuation with socialism was not just a phase those ideas have shaped his political views and set the groundwork for the long term strategy of his administration it could be argued that obama s past no longer matters but in a sense it matters more than the present obama has adopted the gradualist socialist strategy of his mentors seeking to combine comprehensive government regulation of private businesses with a steadily enlarging public sector eventually in his hands capitalist america could resemble a socialist inspired scandinavian welfare state the gap between inner conviction and public relations in obama s case is vastly wider than for most american politicians if americans understood in 2008 the facts kurtz reveals in this shocking political biography obama would not be president today the fears of his harshest critics are justified our commander in chief is a radical in chief
