with the increasing awareness that mere economic and production based
explanations do not adequately describe the motivations for governance
researchers have focused on the behavioral side of the firm performance to justify
the economic rationale of their typical behaviours this book describes the
concept of corporate governance its emergence and the contemporary thinking
around it with emphasis on conflicts of interests assumed to be related to the
theory of separation of ownership and control the book delves into topics such as
insider trading excessive executive compensation managerial expropriation of
shareholders wealth false reporting accounting non disclosures and self dealing
