technological linkages between justice and law enforcement agencies are radically altering criminal process and access to justice for prisoners video links integral to an increasingly networked justice matrix enable the custodial appearance of prisoners in remote courts and are becoming the dominant form of court appearance for incarcerated defendants this book argues that the incorporation of such technologies into prisons is not without consequence technologies make a critical difference to prisoners experiences of criminal justice by focusing on the prison endpoint and engaging with the population most affected by video links the prisoners themselves this book interrogates the legal and conceptual shifts brought about by the technology s displacement of physical court appearance the central argument is that custodial appearance has created a heightened zone of demarcation between prisoners and courtroom participants this demarcation is explored through the transformed spatial corporeal and visual relationships the cumulative demarcations challenge procedural justice and profoundly recompose prisoners legal experiences in ways not necessarily recognised by policy makers

for nearly forty years the united states has been gripped by policies that have placed more than 2 5 million americans in jails and prisons designed to hold a fraction of that number of inmates our prisons are not only vast and overcrowded they are degrading relying on racist gangs lockdowns and supermax style segregation units to maintain a tenuous order mass incarceration on trial examines a series of landmark decisions about prison conditions culminating in brown v plata decided in may 2011 by the u s supreme court that has opened an unexpected escape route from this trap of tough on crime politics this set of rulings points toward values that could restore legitimate order to american prisons and ultimately lead to the demise of mass incarceration simon argues that much like the school segregation cases of the last century these new cases

represent a major breakthrough in jurisprudence moving us from a hollowed out vision of civil rights to the threshold of human rights and giving court backing for the argument that because the conditions it creates are fundamentally cruel and unusual mass incarceration is inherently unconstitutional since the publication of michelle alexander s the new jim crow states around the country have begun to question the fundamental fairness of our criminal justice system this book offers a provocative and brilliant reading to the end of mass incarceration

based on access to interviews diaries court records and the criminal himself this is the story of serial killer keith hunter jespersion who wrote confession signed with a happy face
