kathak the classical dance of north india combines virtuosic footwork and dazzling spins with subtle pantomime and soft gestures as a global practice and one of india s cultural markers kathak dance is often presented as heir to an ancient hindu devotional tradition in which men called kathakas danced and told stories in temples the dance s repertoire and movement vocabulary however tell a different story of syncretic origins and hybrid history it is a dance that is both muslim and hindu both devotional and entertaining and both male and female kathak s multiple roots can be found in rural theatre embodied rhythmic repertoire and courtesan performance practice and its history is inextricable from the history of empire colonialism and independence in india through an analysis both broad and deep of primary and secondary sources ethnography iconography and current performance practice margaret walker undertakes a critical approach to the history of kathak dance and presents new data about hereditary performing artists gendered contexts and practices and postcolonial cultural reclamation the account that emerges places kathak and the kathaks firmly into the living context of north indian performing arts

animal breeding has been complicated by persisting factors across species cultures geography and time in *Made to Order* Margaret E. Derry explains these factors and other breeding concerns in relation to both animals and society in north america and europe over the past three centuries *Made to Order* addresses how breeding methodology evolved what characterized the aims of breeding and the way structures were put in place to regulate the occupation illustrated by case studies on important farm animals and companion species the book presents a synthetic overview of livestock breeding as a whole it gives considerable emphasis to genetics and animal breeding in the post 1960 period the relationship between environmental and improvement breeding and regulation of breeding as seen through pedigrees in *Doing So* Margaret E. Derry shows how studying the ancient human practice of animal breeding can illuminate the ways in which human thinking theorizing and evolving characterize our interactions with all natural processes

this interdisciplinary collection takes a deep dive into early modern hispanic health and demonstrates the multiples ways medical practices and experiences are tied to gender

ideology of purity challenges the assumption that animal breeding has served as a reliable model for eugenics through a direct comparison of the views of eugenicists with those of animal breeders eugenicists have cited animal breeding to justify their conceptions on human heredity and purity misunderstanding the true meaning behind these principles and practices rather than accepting eugenic rhetoric at face value this book examines how concepts like purity have been understood and applied differently in animal breeding and human eugenics it explores how government policies have responded to both groups and aligned their demands historian Margaret E. Derry shows that the state promoted different forms of purity for animals and humans and that the perceived parallels were more rhetorical than real through an analysis of topics such as nature versus nurture and the role of selective breeding this book uncovers fundamental differences in goals methods and assumptions surrounding breeding by drawing the conclusion that connections between eugenics and animal breeding were largely constructed through suggestive language rather than substantive similarity derry offers a new and critical perspective on the historical relationship between science ideology and policy

in the spring and summer of 1938 a third generation german canadian took an unforgettable road trip in europe franklin wellington wegenast drove through austria italy france luxembourg and germany he stopped to talk to people along the way and offered rides to those requesting them he listened to what his passengers had to say about their lives the conditions they lived under and their views on what was happening in europe wegenast heard hitler speak in innsbruck and so witnessed first hand nazi power as austria's independence crumbled in his journal he noted the sheer animal force in the cries of the crowd and foresaw the collision course that was shaping up between the germans who supported hitler's ideology and the rest of the world wegenast was unable to publish the journal he kept on his journey and at the time of his death in 1942 it was in an unorganized state it is published here for the first time alongside commentary that puts the entries in the contexts of wegenast's life experiences the prevailing attitudes of the day both in north america and europe and

modern scholarship on germany in the 1930s the book includes correspondence wegenast had with a young german for a few months after his return to canada correspondence that reveals even more clearly the intensity of his feelings and his fear for the future newly released government documents and diaries kept by germans during the interwar period have meant a considerable outpouring in recent years of material on german sentiment in the 1930s wegenast s diaries and letters corroborate modern assessments of german thinking and add insightful commentary providing an outsider insider view on the brewing conflict
