we are in the midst of a devastating takeover of our world the global coup d'État shows how why and what we can do to stop it the year 2020 will go down in history as the year when the global coup d'État was initiated in a historical context the covid 19 crisis the murder of george floyd by a police officer and subsequent riots mass protests against government lockdowns and the 2020 election appear rather as part of a well directed chess game with complete control of the whole planet as the final goal during the crescendo of this drama the powers behind the coup emerged quite openly offering a techno totalitarian and very far reaching solution to the world this

solution which they call the great reset means that mankind must be fully integrated and merged with a worldwide technological system through the application of the technologies of the fourth industrial revolution all for our own safety security and well being most people probably associate the phrase coup d'état with a sudden violent takeover with tanks around government buildings takeover of media channels purges of dissidents arrests and so on but this is not always the case the usurpers can also seize power without violence in a completely legal and democratic way with the consent or even enthusiasm of the people as evidenced in 2020 there are many existential threats climate crisis refugee crises terrorism pandemics etc that can be used to establish a firmer and more centralized governance this can be a gradual process barely perceivable until it's almost a fait accompli in the global coup d'état author and researcher jacob nordangård shares the history describes the process reveals the methods and identifies the agents of this worldwide takeover so that we can take action before it is too late
