this detailed study throws light on the evolution of british policy in south east asia in the turbulent post war period through extensive archival research and insightful analysis of the british mindset and official policy tarling demonstrates that south east asia was perceived as a region consisting of mutually co operating new states rather than a fragmented mass the book covers the immediate post war period until the colombo plan and the outbreak of hostilities in korea a companion volume to tarling s britain southeast asia and the onset of the pacific war it finds parallels between britain s approach to the threat of japan and its approach to the threat of communism it also shows that the british sought to shape us involvement in part by involving other commonwealth countries especially india this is a major contribution to the diplomatic and political history of south east asia
