this is the first comprehensive practical handbook on the topic of environmental social governance esg and its impact on the real estate industry the sustainability megatrend is still in its early stages in the real estate sector and there is a lack of standards practical examples and data the development is very dynamic and sometimes confusing and new complex requirements and regulations are constantly being added the authors an expert team of economists lawyers investors asset managers and engineers provide an overview of national and european regulatory requirements as well as current market developments they show what role esg plays not only in the areas of new construction renovation and real estate management but also in investment processes and real estate valuations contents esg and the real estate market esg and regulatory environment esg and real estate management esg in urban and project development

by analysing the irish development strategy this book questions its much portrayed success the republic of ireland has followed an export oriented development path relying on foreign direct investment inflows as the main development agent however this

chosen path of development has led to growing industrial social and developmental polarisations despite the indisputable impressive overall growth figures growth is primarily driven by the investing multinationals and the inequality of earnings have been exacerbated thus questioning the Irish growth model's success

The ink on the treaties of Rome of 25 March 1957 was hardly dry when the Commission set itself up for business on 1 January 1958 in Brussels with an agenda covering all areas of the economic life of the six founder countries Germany France Italy and the three Benelux countries of Belgium Luxembourg and the Netherlands the 15 year period from 1958 to 1972 covered by this work corresponds to the beginnings of the European Commission whose first task was to come up with practical means of achieving the treaties' main objective the establishment of a common market taking as its point of departure the general interest of the entire community of six member states forged by men and women with often very different backgrounds the history of the first few years is one of crises but also of achievements which shaped the major milestones of European integration in almost every area imagination long term vision enthusiasm and tenacity seem to have been the great virtues of the people working for the young European institution at that time by piecing together over a number of years the recollections of former Commission officials a consortium of university teachers under the direction of Professor Michel Dumoulin of the Catholic University of Louvain at Louvain-la-Neuve has at last made it possible to tell the story of what happened during those early days this is a new edition of the book originally published in 2007 a similar project has since resulted in the publication of a book about the history of the Commission between 1973 and 1986 editor
