how do social practices prefigure experiences and how does embodied experience organize the performance of practices this book suggests that the classic concept of style offers a fresh answer to the

question how doings and sayings are linked into practice bundles based on a rich ethnographic study of the visual practices of the german speaking freeskiing subculture this work develops a theory of phenopractices or embodied cultural practices dedicated to apprehending and expressing style focusing on the visual dimension it extends the thought of garfinkel and schatzki using recent insights from science and technology studies and research at the intersection of neuroscience and phenomenology this offers a new perspective on fundamental practice theoretical questions about the nature of practice elements social order in the context of rules and regularity or action and practical intelligibility each chapter discusses and develops foundational concepts such as time space action emotion or perception based on an analysis of freeskiing practices such as planning a route in the backcountry testing a new ski model or judging freestyle contests the central argument is that cultural styles of conduct are not only symbolic structures but a functional resource which organizes situational intelligibility and thus enables social order based on aligned and managed embodied routines because the stabilization dissemination and evolution of such styles happens via different media practice change is primarily influenced by media rather than symbolic rational or functional needs or ends a rich ethnography and provocative theoretical argument of interest to anyone working on contemporary practice thought advancing phenomenology the sociology of vision lifestyle sports media or practice evolution

how modern notions of architectural style were born and the debates they sparked in nineteenth century germany the term style has fallen spectacularly out of fashion in architectural circles once a conceptual key to understanding architecture s inner workings today style seems to be associated with superficiality formalism and obsolete periodization but how did style once defined by german sociologist georg simmel as a place where one is no longer alone in architecture actually work how was it used and what did it mean in style and solitude mari hvattum seeks to understand the apparent death of style returning to its birthplace in the late eighteenth century and charting how it grew to influence modern architectural discourse and practice as hvattum explains german thinkers of the eighteenth and nineteenth century offered competing ideas of what style was and how it should be applied in architecture from karl friedrich schinkel s thoughtful eclecticism to king maximilian ii s attempt to capture the zeitgeist in an architectural competition style was at the center of fascinating experiments and furious disputes starting with johann joachim winckelmann s invention of the

period style and ending a century later with gottfried semper's generative theory of style hvattum explores critical debates that are still ongoing today
