the story of a brutal shark attack that cost a woman her arm and much of her leg and her death defying recovery one of the most dreadful experiences humans fear is a shark attack this horrifying agony is exactly what happened to nicole moore a nurse from orangeville ontario it was an assault all the more brutal for being so unlikely she was standing in waist deep water at a mexican resort she came very close to dying losing 60 percent of her blood from deep bites on her arm and leg and was rushed to a hospital where she received a questionable level of medical care that left her and her family confronting physical and mental anguish surviving gruesome misery including the amputation of her left arm and attempts to rebuild her disfigured leg she has fought on to become a source of inspiration for those facing seemingly insurmountable challenges

featuring specially commissioned full color artwork the story of the perilous glider assaults carried out by the men who sometimes led and sometimes followed world war ii paratroopers onto their objectives military gliders came of age in world war ii when glider assault infantry were the forerunners of today s helicopter delivered airmobile troops from the light pre war sports and training machines several nations developed troop carrying gliders capable of getting a whole squad or more of infantry with heavy weapons onto the ground quickly with the equipment that paratroopers simply could not carry they made up at least one third of the strength of us british and german airborne divisions in major battles and they also carried out several daring coup de main raids and spearhead operations however the dangers were extreme the techniques were difficult the losses were heavy particularly during night operations and the day of the glider

assault was relatively brief this book explains the development and organization of glider troops their mounts and the air squadrons formed to tow them the steep and costly learning curve and the tactics that such troops learned to employ once they arrived on the battlefield

the allies m10 tank destroyer and the germans sturmgeschütz stug lll were the unsung workhorses of the northwest european

battlefields of 1944-45 while their mission was not principally fighting one another their widespread use ensured their frequent encounters from the Normandy bocage to the rubble strewn streets of Aachen the Stug III was the quintessential assault gun a low slung heavily armoured turret less vehicle intended to provide direct fire support for infantry formations whilst the M10 3in gun motor carriage was originally developed as a tank destroyer however by 1944 the 3in gun proved ineffectual against the most thickly armoured German tanks and was consequently relegated to infantry support too widely deployed in roles their designers had not envisaged these two armoured fighting vehicles clashed repeatedly during the 11 month campaign which saw the Allies advance from Normandy to the heart of the Reich fully illustrated with specially commissioned artwork this is the story of their confrontation at the height of World War II
