in crossing bar lines the politics and practices of black musical space james gordon williams reframes the nature and purpose of jazz improvisation to illuminate the cultural work being done by five creative musicians between 2005 and 2019 the political thought of five african american improvisers trumpeters terence blanchard and ambrose akinmusire drummers billy higgins and terri lyne carrington and pianist andrew hill is documented through insightful multilayered case studies that make explicit how these musicians articulate their positionality in broader society informed by black feminist thought these case studies unite around the theory of black musical space that comes from the lived experiences of african americans as they improvise through daily life the central argument builds upon the idea of space making and the geographic imagination in black geographies theory williams considers how these musicians interface with contemporary social movements like black lives matter build

alternative institutional models that challenge gender imbalance in improvisation culture and practice improvisation as joyful affirmation of black value and mobility both terence blanchard and ambrose akinmusire innovate musical strategies to address systemic violence billy higgins s performance is discussed through the framework of breath to understand his politics of inclusive space terri lyne carrington confronts patriarchy in jazz culture through her social science music project the work of andrew hill is examined through the context of his street theory revealing his political stance on performance and pedagogy all readers will be elevated by this innovative and timely book that speaks to issues that continue to shape the lives of african americans today

this book combines elementary theory from computer science with real world challenges in global geodetic observation based on examples from the geodetic observatory wettzell germany it starts with a step by step introduction to developing stable and safe scientific software to run successful software projects the use of software toolboxes is another essential aspect that leads to the application of generative programming an example is a generative network middleware that simplifies communication one of the book s main focuses is on explaining a potential strategy involving autonomous production cells for space geodetic techniques the complete software design of a satellite laser ranging system is taken as an example such automated systems are then combined for global interaction using secure communication tunnels for remote access the network of radio telescopes is used as a reference combined observatories form coordinated multi agent systems and offer solutions for operational aspects of the global geodetic observing system ggos with regard to industry 4 0

this book covers the linux mint 22 release focusing on desktops and administrative tools the emphasis here is on what users will face when using linux mint covering topics like installation applications software management the linux mint desktops cinnamon mate and xfce shell commands network connections and system administration tasks linux mint 22 introduces several new features as well as numerous smaller modifications it is based on the ubuntu 24 04 long term support release the cinnamon mate and xfce desktops are examined in detail advanced components are also examined such as samba server configuration systemd service management and linux mint software management applications part 1 focuses on getting started covering linux mint information and resources using the linux mint live dvd usb installing and setting up linux mint upgrading linux mint basic use of the desktops cinnamon mate and xfce and connecting to wired and wireless networks repositories and their use are covered in detail software manager synaptic package manager and the apt command are discussed the linux mint x apps are also reviewed part 2 covers the cinnamon mate and xfce desktops kde is no longer supported by linux mint though you can install the ubuntu version kubuntu the cinnamon desktop has the cinnamon menu with a favorites sidebar similar to the ubuntu dock the mate desktop is derived from the gnome 2 desktop but with a more advanced applications menu the xfce desktop is a streamlined version of linux mint with extensive configuration options to setup the desktop as you want part 3 deals with administration topics first discussing system tools like the gnome system monitor the disk usage analyzer disk utility and seahorse key management a detailed chapter

on linux mint system administration tools is presented covering tasks such as managing users and file systems bluetooth setup network folder and file sharing an printer administration discussed the network connections chapter covers network tasks including manual configuration of wired and wireless connections and firewalls shell configuration using shell script files are discussed the systemd management of services and the samba windows server are examined in detail
