the field of science and technology studies has long critiqued the idea that there is such a thing as a universal and singular science that exists independently of human society interpretation and action however the multiple significant ways in which

colonial legacies impact and shape this project have often remained out of sight at the edges of the discipline in this important book amit prasad seeks to rectify this erasure demonstrating that problematic idealized imaginaries of science scientists and the scientific realm can be traced back to the birth of modern science during european colonialism such visions of science and technology have undergirded the imagination of the west and thus of its others constructing hierarchies of technological innovation and scientific value but also unexpectedly leaving society vulnerable to contemporary threats of misinformation and conspiracy theories as has been strikingly evident during the covid 19 pandemic far from being an indictment of sts this rigorous book seeks to highlight such concerns to make sts engage more carefully with issues of colonialism and thus to enable readers to understand the rapidly changing global topography of science and technology today and into the future
