children are already learning at birth and they develop and learn at a rapid pace in their early years this provides a critical foundation for lifelong progress and the adults who provide for the care and the education of young children bear a great responsibility for their health development and learning despite the fact that they share the same objective to nurture young children and secure their future success the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well transforming the workforce for children birth through age 8 explores the science of child development particularly looking at implications for the professionals who work with children this report examines the current capacities and practices of the workforce the settings in which they work the policies and infrastructure that set qualifications and provide professional learning and the government agencies and other funders who support and oversee these systems this book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals these detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning shared knowledge and competencies for care and education professionals and principles for effective professional learning young children thrive and learn best when they have

secure positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress transforming the workforce for children birth through age 8 offers guidance on system changes to improve the quality of professional practice specific actions to improve professional learning systems and workforce development and research to continue to build the knowledge base in ways that will directly advance and inform future actions the recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive and ultimately improve outcomes for children

this book is an important new resource for clinicians caring for ventilator dependent children who often have complex health care needs are supported by advanced technology and are at high risk of serious complications despite the complicated health care needs of children who rely on chronic respiratory support there are few guidelines and little evidence available to guide the clinicians who care for these patients this book covers the many aspects involved in the care of these complex children with input from experts in the fields of pediatric pulmonology intensive care ethics respiratory therapy and nursing in depth chapters provide an introduction to the use of chronic invasive and non invasive ventilation in children and describe and review what is known about methods of delivering ventilator support care of the chronically ventilated patient in the community use of chronic ventilator support in patients with disorders commonly leading to respiratory failure and outcomes for patients and their caregivers this book is intended to be useful not only for pediatric pulmonologists but also for intensivists cardiologists physical medicine rehabilitation specialists nurses respiratory therapists and the primary care physicians involved in the complexities of managing care for this unique group of special needs children

social justice is a concept which is widely touted and lauded as desirable yet its meaning may differ depending on

whether its focus is on the underlying values of social justice the more specific objectives these entail or the actual practices or policies which aim to achieve social justice in the current global political context we need to re examine what we mean by social justice and demonstrate that making a difference and contributing to human flourishing is more achievable than this context would suggest the book aims to increase our sense of being able to enact social justice by showcasing different ways of contributing to social justice and making a difference in different settings and different ways part 1 introduces a fluid and contextual approach to social justice part 2 examines social justice and faith perspectives such as christianity judaism islam and community organisations part 3 illustrates perspectives on children the family sport and local government part iv provides perspectives of social justice in education considering concepts of citizenship and social justice from a variety of contemporary perspectives everyday social justice and citizenship should be considered essential reading for academics and students from a range of social scientific disciplines with an interest in social justice as well as those working in education community work youth work and chaplaincy
