this ebook collects the nearly 300 stories that first appeared in the
magazine an independent biweekly periodical for narrative non fiction it

covers researchers crying wolf learning to emulate animal sounds diy medical gear making prosthetics and other tools available more cheaply and to the developing world a fever in japan that leads to a new friendship saving seeds to save the past the plan to build a giant lava lamp in eastern oregon portland s unicycle riding darth vader mask wearing flaming bagpipe player a hidden library at mit that contains one of the most extensive troves of science fiction and fantasy novels and magazines in the world and far far more

many companies have been criticised for weaknesses in their business ethics and every year new scandals and ethical breaches hit the media the problem of ethical lapses however is not confined to business and there are few sectors of society that can claim the moral high ground in an increasingly transparent world employee engagement is founded on trust of their boss their department their whole enterprise the tone from the top how behaviour trumps strategy will convince you that the behaviour of leaders and the signals they send are more important than strategy in offering a model for a much more systematic approach and first hand evidence from interviews with the chairmen of a quarter of a trillion pounds of market capitalization ftse200 companies ian muir will persuade you that behaviour and signalling have a much greater influence on business performance and ethics than simply communicating a strategy

this handbook maps the expanding field of gender and eu politics giving an overview of the fundamentals and new directions of the sub discipline and serving as a reference book for gender scholars and students at different levels interested in the eu in investigating the gendered nature of european integration and gender relations in the eu as a political system it summarizes and assesses the research on gender and the eu to this point in time identifies existing research gaps in gender and eu studies and addresses directions for future research distinguished contributors from the us the uk and continental europe and from across disciplines from political science sociology economics and law expertly inform about gender approaches and summarize the state of the art in gender and eu studies the routledge handbook of gender and eu politics provides an essential and authoritative source of information for students scholars and researchers in eu studies politics gender studies politics political theory comparative politics international relations political and gender sociology political economy european and legal studies law

the world is beset by a pandemic of obesity and type 2 diabetes and the need for new drugs is startlingly clear recent years have seen a huge increase in research activity to fill this gap the development of new drugs for diabetes and obesity must be founded upon a sound appreciation of the pathophysiology of these common disorders the dual defects of insulin resistance and impaired insulin secretion are fundamental to the pathogenesis and progression of obesity associated type 2 diabetes there

is a need to explain how new drugs can counter insulin resistance and insulin deficiency to a broad range of professionals from clinical scientists active in early and later phase drug development to specialist physicians and increasingly primary care doctors who must tailor drug regimens to the individual patient clinical research methods for measuring insulin action and insulin secretion have become well established in proof of mechanism studies however selection of the best techniques is by no means straightforward the purpose of the book is to aid the selection of the most appropriate techniques for assessing insulin action insulin secretion and body composition in humans with particular reference to new drugs in phase 1 and 2 studies and aid the understanding of drug effects and non drug treatment strategies on key biochemical hormonal defects of obesity and type 2 diabetes the book will assume a working knowledge of human physiology relating to glucose metabolism and will be of interest to biomedical scientists pharmacologists academics involved in metabolic research and clinicians practicing in these specialties

a fortnightly bulletin on financial and political trends
