this book examines the theories and practice of how to control corporate behaviour through legal techniques the principal theories examined are deterrence economic rational acting responsive regulation and the findings of behavioural psychology leading examples of the various approaches are given in order to illustrate the models private enforcement of law through litigation in the usa public enforcement of competition law by the european commission and the recent reform of policies on public enforcement of regulatory law in the united kingdom noting that behavioural psychology has as yet had only limited application in legal and regulatory theory the book then analyses various european regulatory structures where behavioural techniques can be

seen or could be applied sectors examined include financial services civil aviation pharmaceuticals and workplace health safety key findings are that enforcement has to focus on identifying the causes of non compliance so as to be able to support improved performance rather than be based on fear motivating complete compliance systems in which reporting is essential for safety only function with a no blame culture the book concludes by proposing an holistic model for maximising compliance within large organisations combining public regulatory and criminal controls with internal corporate systems and external influences by stakeholders held together by a unified core of ethical principles hence the book proposes a new theory of ethical regulation this title is included in bloomsbury professional s international arbitration online service

this handbook explores the main themes and topics of the emerging field of global administrative law with contributions by leading scholars and experts from universities and organizations around the world the variety of the subjects addressed and the internationality of the handbook s perspectives make for a truly global and multi dimensional view of the field the book first examines the growth of global administrations their interactions within global networks the emergence of a global administrative process and the development of the rule of law and democratic principles at a global level it goes on to illustrate the relationship between global law and other legal orders with particular attention to regional systems and national orders the final section devoted to the emergence of a global legal culture brings the book full circle by identifying the growth of a global epistemic community the research handbook on global administrative law provides a contemporary overview of the nascent field in detailed yet accessible terms making it a valuable book for university courses academics and scholars with an interest in international law administrative law public law and comparative law will find value in this book as well as legal professionals involved with international and supranational organizations and national civil servants dealing with supranational organizations

in this highly topical second edition of eu trade law rafael leal arcas presents a thorough analysis of eu law and policy in the field of international trade with an updated focus on sustainability this updated edition provides a clear overview of the substantive and procedural aspects of eu trade law and policy balancing problems and solutions using timely case studies

this is the first book to focus on international efforts to address syrian chemical weapons issues in an international law context it provides an overview of the process of control over syrian compliance non compliance with international obligations including the keys to success in eliminating syria s stockpiles and

reasons for difficulties in handling multiple uses of toxic chemicals as weapons in domestic armed conflicts it also addresses collective and unilateral sanctions against syria outside of international institutional frameworks and their implications for subsequent cases supported by extensive analyses of developments within the opcw executive council and the un security council this book is recommended for readers seeking insight about chemical weapons issues and dynamism of international law

this open access book focuses on public actors with a role in the settlement of investment disputes traditional studies on actors in international investment law have tended to concentrate on arbitrators claimant investors and respondent states yet this focus on the principal players in investment dispute settlement has allowed a number of other seminal actors to be neglected this book seeks to redress this imbalance by turning the spotlight on the latter from the investor's home state to domestic courts from sub national governments to international organisations and from political risk insurance agencies to legal defence teams in national ministries the book critically reviews these overlooked public actors in international investment law

economic sanctions are instruments of foreign policy however they can also affect legal relations between private parties principally in contract in such cases the court or arbitration tribunal seized must decide whether to give effect to the economic sanction in question private international law functions as a filter transmitting economic sanctions that originate in public law to the realm of private law the aim of this book is to examine how private international law rules can influence the enforcement of economic sanctions and their related foreign policy objectives a coherent eu foreign policy position in addition to promoting legal certainty and predictability would presuppose a uniform approach not only concerning the economic sanctions of the eu but also with regard to the restrictive measures imposed by third countries however if we examine in detail the application of economic sanctions by member states courts and arbitral tribunals we find a somewhat different picture this book argues that this can be explained in part by the divergence of private international law approaches in the member states

principles of international energy transition law provides a succinct treatment of the legal principles that govern the transition to green energy the book positions energy transition in a broader energy context and outlines the interactions between different legal disciplines giving direction on how they can be reconciled

tax planning for u s companies doing business in the eu analyses the design of tax conversion and deferral structures that are advantageous to u s

multinationals to reach their goals minimizing liability maximizing credits deducting expenses and utilizing losses using tools such as routing of income and classification of entities and overcoming barriers like the cfc provisions of the u s tax law examines u s federal corporate law and analyses european company taxation with specific tax planning techniques for germany france the netherlands belgium austria denmark ireland spain luxembourg and switzerland
