democratization since the implosion of the communist bloc displays a mixed balance while the neo democracies in central eastern european countries can be seen as largely consolidated many other processes of democratization in other parts of the world such as africa asia and latin america got stuck as unconsolidated or became defective democracies some regressed into hybrid regimes or were even turned into autocracies while transitology dealt with the transition from authoritarian rule the reverse process the transition from democratic rule remained almost completely outside the scholarly attention this special issue will address the problems of the regression of democracy and aims at closing the gap between research on democracy and democratization on one side and the emergence of authoritarian regimes on the other the contributions of this volume analyse the different phenomena in which decline of democracy fans out the loss of quality which means a silent regression the backslide into hybrid regimes hybridization and the breakdown of democracy

the armed struggle waged by the anc s military wing umkhonto we sizwe mk was the longest sustained insurgency in south african history this book offers the first full account of the rebellion in its entirety from its early days in the 1950s to the inauguration of nelson mandela as south african president in 1994 vast in scope this story traverses every corner of south africa and extends throughout southern africa where mk s largest campaigns and heaviest engagements occurred as well as to the solidarity networks that the rebellion mobilised around the world drawing principally from previously unpublished writings and testimonies by the men and women who fought the armed struggle this book recreates the drama heroism and tragedy of their experiences it tells the story of leaders like nelson mandela oliver tambo joe slovo and chris hani whose reputations were forged in the crucible of the armed struggle but it is also a tale of martyrs such as looksmart ngudle ashley kriel and phila ndwandwe as well as of mk cadres such as leonard nkosi and glory sedibe who would ultimately turn against the anc and collaborate with the state in hunting down their former comrades written in a fresh immediate style umkhonto we sizwe is an honest account of the armed struggle and a fascinating

chronicle of events that changed south african history

lanik mueller s birthright as heir to planet treason s most powerful rulership will never be realized he is a rad radical regenerative a freak among people who can regenerate injured flesh and trade extra body parts to the offworld oppressors for iron for on a planet without hard metals or the means of escape iron is power in the race to build a spacecraft iron is the promise of freedom which may never be fulfilled as lanik uncovers a treacherous conspiracy beyond his imagination now charged with a mission of conquest and exile lanik devises a bold and dangerous plan a quest that may finally break the vicious chain of rivalry and bloodshed that enslaves the people of treason as the offworld never could

a clear eyed examination of the open access movement past history current conflicts and future possibilities open access oa could one day put the sum of human knowledge at our fingertips but the goal of allowing everyone to read everything faces fierce resistance in athena unbound peter baldwin offers an up to date look at the ideals and history behind oa and unpacks the controversies that arise when the dream of limitless information slams into entrenched interests in favor of the status quo in addition to providing a clear analysis of the debates baldwin focuses on thorny issues such as copyright and ways to pay for free knowledge he also provides a roadmap that would make oa economically viable and as a result advance one of humanity s age old ambitions baldwin addresses the arguments in terms of disseminating scientific research the history of intellectual property and copyright and the development of the university and research establishment as he notes the hard sciences have already created a funding model that increasingly provides open access but at the cost of crowding out the humanities baldwin proposes a new system that would shift costs from consumers to producers and free scholarly knowledge from the paywalls and institutional barriers that keep it from much of the world rich in detail and free of jargon athena unbound is an essential primer on the state of the global open access movement

science and politics have collaborated throughout human history and science is repeatedly invoked today in political debates from pandemic management to climate change but the relationship between the two is muddled and muddied leading policy analyst geoff mulgan here calls attention to the growing frictions caused by the expanding authority of science which sometimes helps politics but often challenges it he dissects the complex history of states use of science for conquest glory and economic growth and shows the challenges of governing risk from nuclear weapons to genetic modification artificial intelligence to synthetic biology he shows why the governance of science has become one of the biggest challenges of the twenty first century ever more prominent in daily politics and policy whereas science is ordered around what we know and what is politics engages what we feel and what matters how can we reconcile the two so that crucial decisions are both well informed and legitimate the book proposes new ways to organize democracy and government both within nations and at a global scale to better shape science and technology so that we can reap more of the benefits and fewer of the harms also available as an audiobook
