attention learn more about your military now does a corporal have to salute a lieutenant or is it the other way around what are forward deployed units is an armored cow a type of tank or something soldiers eat are polaris missiles dropped from the air or launched from a submarine if someone calls you a cat 4 should you be honored or offended do you feel lost when it comes to all things military sure you hear things on the news and maybe you know someone who is in the military but you probably have a hard time fully grasping the acronyms equipment and protocol they discuss that's where a civilian's guide to the U.S. military can help author Barbara Schading decodes all things military for you she discusses each branch army navy marines air force and the coast guard in simple terms you can understand you'll get the background information an easy to read chart showing rank and insignia and an explanation of the organization of each branch in addition the book has extensive glossaries that cover terms acronyms slang and equipment you'll find an entire chapter that covers special operations forces like the green berets force recon army rangers and more you'll learn about their specific training missions and history the book also covers other important aspects of the military like flag and saluting etiquette military funerals the tombs of the unknown the American Legion USO veterans of foreign wars and other groups military law military academies medals and decorations official military music an explanation of the Geneva Convention and a list of resources to help you find more information so the next time you read the paper or talk with a new recruit you don't have to feel lost become a knowledgeable civilian with the help of a civilian's guide to the U.S. military

through examinations of U.S. military racial and gender integration efforts and its handling of sexuality this book

argues that the need for personnel filling the ranks has forced the armed services to be pragmatically progressive since world war ii the integration of african americans and women into the united states armed forces after world war ii coincided with major social movements in which marginalized civilians demanded equal citizenship rights as this book explores due to personnel needs the military was a leading institution in its opening of positions to women and african americans and its offering of educational and economic opportunities that in many cases were not available to them in the civilian world by opening positions to african americans and women and remaking its where boys become men image the military was an institutional leader on the issue of social equality in the second half of the 20th century the pushback against gay men and women wishing to serve openly in the forces however revealed the limits of the military s pragmatic progressivism this text investigates how policymakers have defined who belongs in the military and counts as a soldier and examines how the need to attract new recruits led to the opening of the forces to marginalized groups and the rebranding of the services

the american military a concise history narrates the american military experience it focuses on four recurring themes citizen soldiers vs the standing armed forces military professionalism mechanization and technology and the limits of power and illuminates the role of the american military in its past and how it is shaping current and future national security issues

this work is a fascinating overview of americans complex and occasionally uneasy relationship with military service from world war ii to the age of global terrorism the end of the cold war ushered in a new kind of war that has already made conventional tactics and strategy obsolete how has the u s military responded in u s military service a reference handbook cynthia watson professor of strategy at the national war college analyzes the major issues that are reshaping the military in the era of global terrorism problems of recruitment urban warfare effective use of electronic media and rebuilding failed states she also examines the unprecedented policy of relinquishing military

duties to the for profit sector which has occurred in both afghanistan and iraq through a combination of detailed analysis and broad overview the work shows how the u s military is quickly transforming itself into a leaner more agile force

when i became secretary of defense ashton b carter said when announcing that the pentagon would open all combat jobs to women i made a commitment to building america s force of the future in the twenty first century that requires drawing strength from the broadest possible pool of talent that pool of talent and how our nation s civilian and military leaders have tried to fill it is what military service and american democracy is all about william taylor chronicles and analyzes the long and ever changing history of that often contentious and controversial effort from the initiation of america s first peacetime draft just before our entry into world war ii up to present day conflicts in iraq and afghanistan a history that runs from the selective service era of 1940 1973 through the era of the all volunteer force of 1973 to the present his book details the many personnel policies that have shaped controlled and defined american military service over the last eight decades exploring the individual and group identities excluded from official personnel policy over time african americans women and gays among others taylor shows how military service has been an arena of contested citizenship one in which american values have been tested questioned and ultimately redefined yet we see how this process has resulted in greater inclusiveness and expanded opportunities in military service while encouraging and shaping similar changes in broader society in the distinction between compulsory and voluntary military service taylor also examines the dichotomy between national security and individual liberty two competing ideals that have existed in constant tension throughout the history of american democracy

presents the history of the u s army and facts about its soldiers and officers the high tech weapons used in its operations and what a typical day in the u s army is like

the us military is one of the largest employers in the country and is a relative microcosm of american society bringing in people from diverse backgrounds and history to defend the nation from all enemies military and civilian leaders address the same challenges as those found in the civilian world including diversity inclusion equity and belonging the us military has both led and followed the nation in establishing policies of diversity and inclusion in this second edition the editors and contributors provide a revised updated and expanded overview of the ways in which diversity and inclusion are dispatched in the us military by providing information and knowledge about celebrated and contested social characteristics including race ethnicity religion gender and sexuality and three new groups comprising the military the dis abled civilians and immigrants astute subject matter experts contribute contemporary must have go to chapters into a fresh compelling and insightful volume on the roles that each of these groups occupy in the us armed services as well as the laws rules and regulations regarding their participation this new edition also provides eleven lived experiences that enliven and humanize each chapter and will assuredly inspire readers

anni baker has created a fascinating exploration of life in the armed forces as it has been experienced by millions of men women and children over the past six decades her book examines the factors that shape military service and military culture from grueling training exercises to sexual relations with local women from overseas duty to the peculiar life of the military brat the book begins with an examination of the enlistment process follows the military lifecycle through career decisions promotions raising families and retirement explores the impact of war on military society and ends with a discussion of the place of the armed forces in the united states a wide variety of sources were used in this study including contemporary scholarship government and military records public media and most important interviews and written materials from military personnel retirees family members and civilian employees using a lively and readable style baker blends clear explanations of elements of military life information on the development of military society and the voices of those who serve into an insightful account of this fascinating

subculture it is the author's view that not only is study of the U.S. military a valuable undertaking in itself but in addition it will enrich our perspective on civilian life and culture in the United States. The military is a distinct society based on a set of common values that are sometimes though not always at odds with those of civilian society. The extent to which active duty personnel, family members, and civilians internalize these values dictates their comfort with military life and their choice of a military career. Through a discussion of life in the military, Baker examines how the values, traditions, and norms of the armed forces are articulated and shared, how they influence the individual and the institution, and what their role is in American society as a whole.

A comprehensive guide to the lives and experiences of military service members, veterans, and their families in the United States today, with special emphasis given to those of the post-9/11 era, this reference work provides detailed information on the issues U.S. service members face both stateside and during deployments overseas. Issues covered include relations with family, substance use, housing, educational and job training opportunities, post-traumatic stress disorder, and other health issues, and experiences of women, sexual minorities, and ethnic/racial minorities in the armed services. This set also examines major issues related to military service for people close to the men and women who serve our country, such as spouses or partners, children, and parents grappling with such issues as single parenthood during deployment and bereavement at the loss of a loved one. Finally, this set is a valuable resource for people seeking a greater understanding of the issues that confront some military service members and veterans, from chronic health problems to economic vulnerability to suicide to incarceration. The two volumes are written in a comprehensive yet succinct and accessible style by experts familiar with the latest trends and findings.

The U.S. Army, Navy, Air Force, and Marines together make up the most powerful military force in the world. In this volume, young historians will read about the organization of each branch, the extent and limits of their powers, and the job each performs in the defense of the nation. Readers will also learn about the history of each branch and its

role in various military campaigns from the revolutionary war to the battle against terrorism special sections feature information about the coast guard the national guard rotc the reserves and the service academies detailed tables and graphs illustrate the chain of command in each branch the number of troops on active duty throughout the world national defense spending and military casualties suffered by the united states of particular interest is a series of compelling eyewitness accounts of experiences of actual u s military personnel book jacket

let numbers open your eyes to the amazing military world you may know that seal training is tough but what s the drop out rate how fast and how far can fighter jets fly exactly how many pairs of white socks are in a marine recruit s footlocker get all the need to know stats about the army navy marines and air force from weapons to personnel and beyond

includes supplement prepared by the organization of the joint chiefs of staff

ten hut are your students interested in serving their country this informative series is ideal for readers curious about the different branches of military complete with up to date information about the requirements responsibilities missions and more these books are ideal for curious readers report writers and career studies action packed bold photographs enhance each offering and inspire readers to be all they can be

tracing the evolution of the u s army throughout american history the authors show that there is no such thing as a traditional u s military policy rather the laws that authorize empower and govern the u s armed forces emerged from long standing debates and a series of legislative compromises between 1903 and 1940 the authors document this in a series of four volumes collected here in an easily searchable digital tool volume i traces the history of u s military policy from the colonial era through the spanish american war this period is critical for understanding the genesis of the basic structure of today s army and the various factors that informed that structure volume ii focuses on the

major laws enacted in the early 20th century that changed the federal government's relationship with the national guard established what would become today's army reserve and improved the army's ability to expand and develop trained specialists volume iii covers the period from 1940 to 1970 and the development of total force policy volume iv covers the period from 1970 to 2015 from changes to u.s. military policy that resulted from the vietnam war through years of persistent conflict following the september 11th 2001 terrorist attacks

winner of the gilder Lehrman prize for military history an engrossing epic history of the us army in the pacific war from the acclaimed author of *The Dead and Those About to Die* this eloquent and powerful narrative is military history written the way it should be james m. mcpherson pulitzer prize winning historian out here mention is seldom seen of the achievements of the army ground troops wrote one officer in the fall of 1943 whereas the marines are blown up to the skies even today the marines are celebrated as the victors of the pacific a reflection of a well deserved reputation for valor yet the majority of fighting and dying in the war against japan was done not by marines but by unsung army soldiers john c. mcmanus one of our most highly acclaimed historians of world war ii takes readers from pearl harbor a rude awakening for a military woefully unprepared for war to makin a sliver of coral reef where the army was tested against the increasingly desperate japanese in between were nearly two years of punishing combat as the army transformed at times unsteadily from an undertrained garrison force into an unstoppable juggernaut and america evolved from an inward looking nation into a global superpower at the pinnacle of this richly told story are the generals douglas macarthur a military autocrat driven by his dysfunctional lust for fame and power robert eichelberger perhaps the greatest commander in the theater yet consigned to obscurity by macarthur's jealousy vinegar joe stillwell a prickly soldier miscast in a diplomat's role and walter krueger a german born officer who came to lead the largest american ground force in the pacific enriching the narrative are the voices of men otherwise lost to history the uncelebrated army grunts who endured stifling temperatures apocalyptic tropical storms rampant malaria and other diseases as well as a fanatical enemy bent on total destruction this is an essential

ambitious book the first of three volumes a compellingly written and boldly revisionist account of a war that reshaped the american military and the globe and continues to resonate today includes maps and photos

the u s military is made up of five branches and each has a very important and very specific job to do from the land to the sea to the air the military is there to protect the united states on all fronts in this compelling series readers will learn about the history heroes and high tech machines of the modern military captivating photographs and informative sidebars help reinforce readers understanding of the daily responsibilities of america s armed forces comprehensive view of each military branch features historic facts as well as contemporary information text is paired with photographs from the past and present sidebars aid comprehension sources of further information table of contents glossary and index

the code of federal regulations is the codification of the general and permanent rules published in the federal register by the executive departments and agencies of the federal government
