an america in which the color of one s skin no longer matters would be unprecedented with the election of president barack obama in 2008 that future suddenly seemed possible obama s rise reflects a nation of fluid populations and fortunes a society in which a biracial individual could be embraced as a leader by all yet complicating this vision are shifting demographics rapid redefinitions of race and the instant invention of brands trends and identities that determine how we think about ourselves and the place of others this collection of original essays confronts the premise advanced by black intellectuals that the obama administration marked the start of a post racial era in the united states while the transcendent and post racial black elite declare victory over america s longstanding codes of racial exclusion and racist violence their evidence relies largely on their own salaries and celebrity these essays strike at the certainty of those who insist that life liberty and the pursuit of happiness are now independent of skin color and race in america they argue signify and testify that post blackness is a problematic mythology masquerading as fact a dangerous new race science motivated by black transcendentalist individualism through rigorous analysis these essays expose the idea of a post racial nation as a pleasurable entitlement for a black elite enabling them to reject the ethics and urgency of

improving the well being of the black majority
